1. Introduction

Scarborough Borough Council is responsible for the regulation of the Hackney Carriage and Private Hire trades within the boundaries of the Borough of Scarborough.

This policy and related procedures will guide the work of Scarborough Borough Council in the way in which it carries out its functions. The policy has immediate effect and will be applied to existing licences and new applications received after the date that the policy is adopted by the Council. The Council reserves the right to overturn a decision that has previously been made, or refuse a renewal of a licence, where clear errors are discovered. In addition, the Council will undertake periodic auditing of currently licensed drivers and vehicles to ensure that the policy is adhered to and is being followed in its entirety. Such audits will be conducted using this policy as the required standard.

The policy has been developed by the Council after consulting with both the public at large and the trade in particular. In developing this policy we have also taken into consideration:

- The Council's licensing aims and objectives (see section 3 of this policy)
- Current legislation
- Other Scarborough Borough Council policies
- The Office of Fair Trading "The Regulation of Licensed Taxi and PHV Services in the UK" 2003
- Statutory taxi and private hire vehicle standards July 2020
- Taxi and PHV Licensing Criminal Convictions; Policy, Local Government Regulation, Sept 2010
- Guidance on the Rehabilitation of Offenders Act 1974 – March 2014
- Disclosure & Barring Service Information Note on Rehabilitation of Offenders Act 1974 and Police Act 1997 Orders - 2013
- Regulators' Code 2014
- The Department for Transport's "Taxi and Private Hire Vehicle Licensing: Protecting Users (consultation version).

*This policy sets out the requirements and standards that must be met. In exercising its discretion in carrying out its regulatory functions, the Council will have regard to this policy document. **Notwithstanding the existence of this policy, each application or enforcement measure shall be considered on its own merits. Where it is necessary to depart substantially from the policy, clear and compelling reasons shall be given.***

The Council will formally review the policy statement at least every three years and informally re-evaluate it from time to time. Where revisions are made, the Council will publish a statement of such revisions, along with a revised policy.

2. Definitions

The Local Government (Miscellaneous Provisions) Act 1976, as amended, (“the 1976 Act”) and the Town Police Clauses Act 1847 provides the regulatory framework for Scarborough Borough Council (the “Council”) as the Local authority (the “Authority”) to carry out its licensing functions in respect of Hackney Carriage and Private Hire Licensing.

This document sets out the policy that the Council will apply when making decisions about new applications and licences currently in force. This policy applies to:

- Hackney Carriages; being a vehicle available to transport the public with no more than 8 passenger seats, which is licensed to ply for hire. This means that it may stand at ranks hailed in the street by members of the public, or undertake pre-booked work
- Private Hire vehicles: licensed to carry no more than 8 passengers but must be booked in advance by customers through an operator and cannot ply for hire in the street.
- Private Hire operators
- Hackney Carriage and Private Hire drivers

In undertaking its licensing function, the Council will comply with relevant legislative requirements including:

- Town Police Clauses Act 1847 and 1889
- Local Government (Miscellaneous Provisions) Act 1976
- Transport Act 1985 and 2000
- Crime and Disorder Act 1998
- Environmental Protection Act 1990
- Equality Act 2010
- Road Traffic Acts 1988/ 1991.
- Health Act 2006
- Human Rights Act 1998

The Council will also have regard to other strategies, policies and guidance in its decision making. The Council will also have regard to wider considerations affecting visitors, employers and residents. These include, but will not be limited to: the availability of Hackney Carriage and Private Hire transport at all times; public nuisance; pollution; crime; and the capacity of the trade to cope with customer demand, particularly at night. The Council will also follow the principles laid out in the statutory Regulator’s Code and any recommendations from the Office for Product Safety and Standards.

When considering the Equality Act 2010, the Council also have regard for the Public Sector Equality Duty, which places a duty on the Council to have due regard to:

- Eliminate unlawful discrimination
- Advance equality of opportunity between people who share a protected characteristic and those who do not.
- Foster or encourage good relations between people who share a protected characteristic and those who do not.

Through the Policy, the Council seeks to deliver on the duties placed upon it through the Equality Act. The Council will have regard for the above measures in dealing with the licensing objectives, by protecting the public and licensed drivers from discrimination and ensuring that any unlawful discrimination is dealt with appropriately, working with representatives of the trade and the Police.

3. Aims and Objectives of the Hackney Carriage & Private Hire Licensing Policy

The principal purpose of Hackney Carriage and Private Hire licensing is to protect the public and promote public safety. The Council will adopt and carry out its Hackney Carriage and Private Hire licensing functions with a view to promoting the following:

- **The safety and health of the public and drivers,**
- **Vehicle safety, comfort and access,**

THIS WILL BE COMPLETED FOLLOWING CONSULTATION

E. Promoting the vision of Scarborough's' masterplan

“This blueprint sets out an exciting, innovative and ambitious vision for Scarborough.

- The blueprint builds on Scarborough's rich culture and heritage, its connection with nature and the landscape, and the fact it is already a nationally recognised tourist destination
- The blueprint recognises the climate emergency and promotes measures to ensure the councils net zero target.

Scarborough also acknowledge

- Protecting our most vulnerable people and families, enabling them to maximise their independence
- Ensuring all areas of Scarborough Borough Council are safe, clean and well maintained
- Helping people to improve their health and wellbeing and reducing inequalities within the Borough

These aims and objectives will be taken into account by the Council when making decisions. It is recognised that the licensing function is only one means of securing the delivery of the above objectives. The Council will therefore continue to work in partnership with the industry, its neighbouring authorities, the Police, local businesses and local people towards the promotion of the aims and objectives.

4. Delegations

Under the Council's Constitution, the Licensing Committee has the authority, amongst other licensing matters, to discharge non-executive regulatory Committee functions with respect to Hackney Carriage and Private Hire licensing. This function is further delegated to the Licensing Sub Committee comprising of a minimum of 3 elected members drawn from the Licensing Committee who determine applications, contraventions, suspensions and revocations. References regarding the Licensing Committee (the Committee) shall, in this policy, also be inclusive of the Licensing Committee Sub Committee.

The Strategic Director of Democratic and Legal Services (the "Director") has been delegated by the Council to grant, suspend and refuse licences. In practice this power is restricted to the immediate suspension / revocation of licences in the interests of public safety, and the granting of licenses where there are no criminal or other concerns that give rise to doubts over the applicant's suitability to hold a licence.

In addition, the Director is delegated to appoint and authorise inspectors and officers to investigate and discharge statutory duties. These officers include the Council's, Licensing Manager, Environmental Services Manager and Licensing Enforcement Officers. Such authorised powers include the issuing of warnings, suspension notices and revocations.

5. Driver Requirements

All drivers must satisfy the Council that they are fit and proper people to be granted a drivers' licence, and must then remain a fit and proper person for the duration of that licence. The fitness and propriety of a driver will be monitored / assessed throughout the period that the licence is held.

Applicants are expected to act with honesty and integrity throughout the application process, and must therefore fully and accurately disclose any information that is requested. This includes information regarding previous convictions, warnings and reprimands, current investigations and pending criminal proceedings.

The Council aims to ensure that Private Hire and Hackney Carriage services delivered within the Borough are of a good standard. The application and compliance procedures are designed to ensure these standards are maintained, monitored for compliance and appropriately enforced.

The sections below, therefore, apply equally to Private Hire and Hackney Carriage drivers unless indicated and the application procedure is set out in Appendix A.

5.1 Fit & Proper Person Test

The Council considers that licensed drivers are in a position of trust, and therefore the council must ensure that applicants / licence holders are and remain fit and proper to hold a licence. This requirement is contained within Sections 51 and 59 of the Local Government (Miscellaneous Provisions) Act 1976 (Part II).

The term "Fit and Proper Person" for the purposes of taxi and Private Hire licensing is not legally defined. However, in determining whether a person is fit and proper to hold a licence, those tasked with determining licences / applications are effectively asking the following question of themselves:

Without any prejudice, and based on the information before you, would you allow a person for whom you care, regardless of their condition, to travel alone in a vehicle driven by this person at any time of day or night?

All decisions on the suitability of an applicant or licensee should be made on the balance of probability. This means that an applicant or licensee should not be 'given the benefit of doubt'. If the Committee or delegated officer is only 50/50 as to whether the applicant or licensee is 'fit and proper', they should not hold a licence. The threshold used here is lower than for a criminal conviction (that being beyond reasonable doubt) and can therefore include information that goes beyond criminal convictions.

In order to assess the suitability of an applicant (and to inform decision makers when answering the question above), the Licensing Authority will undertake whatever checks and apply whatever processes it considers necessary to ensure that licences are not issued to, or used by, unsuitable people. In assessing the suitability of an applicant or licence holder, the Council will take into consideration the following factors:

- Criminality
- Safeguarding Issues
- Period of holding a driver's licence
- Number of endorsed driving licence penalty points
- Right to work
- Medical fitness
- Standard of driving / driving ability
- General conduct / standards of behaviour (including online behaviour)
- The conduct of the applicant in making the application (e.g. whether they have acted with honesty and integrity during the application process).
- The previous licensing history of existing / former licence holders (including honesty and integrity).
- Theoretical knowledge of issues and matters related to the work of a licensed driver.
- The Public Sector Equality Duty
- *In addition the Council will also consider further information sources such as the Police (including abduction notices); Children and Adult Safeguarding Committees; other licensing authorities; and statutory agencies.*

5.2 Application process

This Council issue licences that enable the driving of both Hackney Carriages and Private Hire Vehicles- a dual licence. Licences shall be issued for a maximum period of 3 years but the Council can grant licences for a lesser period if deemed appropriate.

Applicants shall have a minimum of 2 years of holding either a full driving licence issued in the UK, the European Community (EC) or one of the other countries in the European Economic Area (EEA). In addition to the above, licensed drivers who hold an EC/EEA driving licence may be requested obtain a GB counterpart document. If this document is required, it shall be produced before the initial licence is issued

The Council may directly access the DVLA records of applicants, or alternatively will employ the services of a third party to do this.

In addition, a third party service may be used to assess the suitability of applicants based on their general behaviour whilst using the internet (in particular social media sites).

Applicants shall provide proof that they have a statutory right to work in the UK and any applicant that has a limited right to work shall not be issued a driver licence for a period longer than that limited period.

The information submitted as part of the application process will be shared, when applicable, with other Council Departments and external statutory bodies e.g. Police and HMRC.

An individual will not be considered fit and proper to hold a licence if there is any evidence of dishonesty, and/or it can be shown that an applicant or existing licence holder has misled, or attempted to mislead, the Council (either officers or members of the Licensing Committee) as part of any process associated with the administration or determination of a licence.

5.3 Disclosure and Barring Service (DBS)

A criminal record check on a driver is seen as an important safety measure. Enhanced Disclosure through the Disclosure and Barring Service is required as these disclosures include details of live and spent convictions, police cautions and other relevant information that indicates that a person poses a risk to public safety. The DBS application procedures are detailed in Appendix B of this policy.

Both Hackney Carriage and Private Hire drivers are included as “exceptions” within the Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975 (the “Exceptions Order”). Accordingly all drivers will be asked to disclose on their application form any caution or conviction even if it is spent for other purposes and those will be revealed on the DBS certificate. Advice will be provided in relation to certain old and minor cautions and convictions which are referred to as "protected". These do not have to be revealed, and will not appear on the DBS certificate. This advisory clause is intended as general guidance only and anyone in doubt should seek their own legal advice.

All applicants for the grant or renewal of a licence requiring a DBS check shall be responsible for the costs of obtaining the DBS certificate.

The Council will in the first instance accept DBS certificates which are applied for through Scarborough Borough Council’s Licensing Unit in conjunction with North Yorkshire County Council DBS service. Agreement must be made on an individual basis if other sourced DBS certification will be accepted

Accordingly all new applicants must disclose on their application form any convictions, cautions, even if spent for other purposes and those will be revealed on their DBS certificate. Fixed penalty notices they have received within the previous 12 months must also be declared. Advice can be provided in relation to old and minor cautions and convictions which are referred to as ‘protected’ . These do not have to be revealed and will not appear on the DBS certificate. This advisory clause is intended as a general guidance only and anyone in doubt should seek their own legal advice. All licence holders shall notify the Council of any convictions or cautions received during their licence period. Failure to inform the Council of any convictions, cautions and fixed penalty notices during the licensing period may result suspension or revocation of the licence.

A licence will not be granted or renewed in the absence of a current Enhanced DBS Disclosure Certificate.

All licence holders must subscribe to the Disclosure and Barring Service Online Update Service, this will be required by a condition placed on the licence. Any costs associated with maintaining this subscription must be met by the licence holder. The licence holder must give permission for the council to undertake checks of their DBS status should the council consider it necessary to do so. The council will use the update service to monitor the criminal record of licence holders. The update service can be used when a licence is renewed – if there are no changes recorded on the DBS certificate then a full DBS check will not be required. In all other cases a full Enhanced DBS check will be required before a licence is renewed.

5.4 Applicants with periods of residency outside of the UK

If an applicant has spent six continuous months or more overseas the Council will need to see evidence of a criminal record check from the country / countries visited covering the period that the applicant was overseas.

Because of the potential lifetime relevance for some of the most serious offences mentioned in this policy, the Council will need to ensure that sufficient background checks are conducted for those applicants that have lived overseas. For EU nationals (including UK citizens) suitable checks should be available. For those countries for which checks are not available, the Council will require a certificate of good conduct authenticated by the relevant embassy.

5.5 Relevance of Convictions and Cautions etc.

The Council is committed to ensuring that the licensed trade are fit and proper, this will entail periodic audits of licensed drivers to ensure that any errors or material changes are identified and acted upon.

In relation to the consideration of convictions, cautions, warning and reprimands etc., the Council has adopted the policy set out in Appendix C.

In assessing whether the applicant is a fit and proper person to hold or retain a licence, the Council will consider each case on its merits. It will take account of cautions and convictions, whether spent or unspent, but only in so far as they are relevant to an application for a licence.

Those applications or renewals with information indicating a past criminal record or, any other concern, will be referred to the Licensing Committee who will make the assessment of whether or not the applicant is a fit and proper person to hold a licence in line with the policy at Appendix C.

The policy at Appendix C will also be used to determine the suitability of an existing licence holder should it be necessary to consider action in relation to the licence part way through the licence period.

5.6 Knowledge Testing

Applicants for a driver's licence are required to have passed the Council's knowledge test. This test will ensure that the applicant has sufficient knowledge in relation to:

- i. Literacy and numeracy
- ii. Child / adult safeguarding awareness
- iii. Disability awareness (including physical and sensory disability)
- iv. Road Safety
- v. Basic vehicle maintenance
- vi. Customer care / customer awareness
- vii. Local knowledge

If applicants fail three successive knowledge tests they will be required to wait at least 12 months (from the date of the most recent failure) before being permitted to take further tests.

Applicants that fail a test must pay a resit fee prior to the test date and any applicant cancelling the test with less than 24 hours' notice will not be refunded the fee.

5.6.1

English and Maths

In addition to the knowledge test, this draft policy seeks consultation feedback as to applicants – should they be required to demonstrate that they have abilities in English and Maths to be accepted as drivers in Scarborough?

This would be to at least to Entry Level 3 standard (as defined in the Qualifications and Credit Framework). If necessary, the applicants' abilities in English and Maths will be assessed by an appropriately qualified individual that will be independent of the Council (such as a local college).

When the applicant has successfully completed a relevant course, they may then re-apply for a licence.

5.7 Medical Assessment

The Council recognises that licensed drivers should have more stringent medical standards than those applicable to normal car drivers because they carry members of the public who have expectations of a safe journey; they are on the road for longer hours than most car drivers; and they may have to assist disabled passengers and handle luggage and therefore requires Group 2 Standards of Medical Fitness as applied by the DVLA to the licensing of lorry and bus drivers, as the appropriate standard for licensed Hackney Carriage and Private Hire drivers.

Applicants shall provide a completed medical examination form supplied by the Council and completed by their own General Practitioner's (GP) practice on first application. A new medical will then be required every 3 years until the driver reaches the age of 65 when a medical will be required annually. In exceptional circumstances, and with prior agreement from the Licensing Manager, a medical assessment can be carried out by another registered GP practice as long as the applicant's medical history has been viewed and assessed.

Licence holders with certain medical conditions (for example certain neurological conditions) may also be required to submit annual forms and adhere to additional requirements in order for them to retain their driver's licence.

Holders of Public Service Vehicle (PSV) and / or Large Goods Vehicle (LGV) Licences, where the holder is able to produce proof of current medical examination less than 3 months old, shall not be required to undergo a medical examination on first application.

Licence holders must advise the Licensing Service of any deterioration or other change in their health that may affect their driving capabilities.

Where there is any doubt as to the medical fitness of the applicant, the Council may require the applicant to undergo and pay for a further medical examination by a Medical Doctor appointed by the Council.

Where there remains any doubt about the fitness of any applicant, the Licensing Committee will review the medical evidence and make any final decision in light of the medical evidence available.

No licence shall be issued until medical clearance (if required) has been established. A licence application will not be accepted / processed unless all elements of the application process have been completed.

Licensed drivers are under a legal duty to carry guide, hearing and other prescribed assistance dogs in their vehicles without additional charge. Drivers who have a medical condition which is aggravated by exposure to dogs may apply to the Council for exemption from the duty on medical grounds. If an application is successful they will be issued with an exemption certificate, and also be issued with a notice of exemption. The notice of exemption must be exhibited in the vehicle by fixing it, facing outwards, either on the windscreen or in a prominent position on the dash.

5.8 Duration of licence

The Council will normally issue licences for either a one or three-year period. However the Council does have the discretion to issue licences of a shorter duration, if it considers this to be necessary given the circumstances.

5.9 Qualifications

The Council believes all passenger transport drivers whose role demands high standards in driving and customer service would benefit from a nationally recognised qualification that includes customer care, meeting the needs of people with disabilities, road safety, the handling of emergencies and how to defuse difficult situations and manage conflict.

As such, applicants (who are not existing licence holders) whose application for a drivers licence is determined on or after the date on which this policy becomes effective will be required to provide evidence of the following qualifications / skills to the Council before a licence will be issued:

- Satisfactory completion of an approved training / awareness raising course in relation to safeguarding children and vulnerable people. This course must have been approved by Scarborough Borough Council Licensing Service.
- Ability in English and Maths by passing the English and Maths section at a minimum of 80% on the driver knowledge test

Existing licence holders will be required to provide evidence of the qualifications detailed above in accordance with the implementation scheme determined by the Council.

Licence holders or applicants must pass a driver assessment course to DVLA standards before application or if deemed required by a licensing officer or licensing committee

Further qualifications may be held by applicants (including the BTEC Level 2), these will only be accepted if they have been issued by a reputable training provider. The training provider must be able to satisfy the council that it has an effective Quality Assurance Framework in place. The framework must cover all elements of the training, verification, assessment and certification process and must satisfy the council with regard to the quality and reliability of all aspects of the process up to and including the awarding of a certificate.

The council reserves the right to refuse to accept a certificate of qualification as proof of an applicant or licence holder meeting a requirement if it is not satisfied as to the authenticity of the certificate or the quality / reliability of any part of the process that lead to the certificate being issued.

5.10 Conditions

The Council may attach such conditions to a Private Hire / Hackney Carriage driver's licence as are considered necessary. These are set out in Appendix D.

The Council has also made byelaws that are specifically applicable to Hackney Carriage drivers / proprietors. The existing Hackney Carriage byelaws are set out in Appendix E. These byelaws will be reviewed from time to time.

5.11 Dress Code

It is recognised that the taxi trade, both Hackney Carriage and Private Hire, play an important role in portraying a positive image of Scarborough Borough Council and are seen as key Ambassadors for the Borough.

Anything that serves to enhance the professional image of the Hackney Carriage and Private Hire trade, and promotes the concept that drivers of licensed vehicles are professional vocational drivers is to be welcomed.

To ensure that not only are the above objectives are met but, also that driving is carried out safely, a Dress Code for licensed drivers has been set. This is provided at in Appendix F. It is a condition of licence that drivers adhere to this policy.

Employees working for companies operating their own dress codes will still be required to comply with the Council's standard.

5.12 Code of Conduct when working with vulnerable passengers

It is essential that young, elderly and other vulnerable people are safeguarded and protected whilst being transported in a licensed vehicle. Accordingly a specific Code of Conduct must be complied with when working with vulnerable passengers. This is provided at Appendix G. It is a condition of licence that drivers adhere to this policy.

5.13 Right of driver to work in the UK

The Council will require all applicants to provide documentary evidence to confirm that they may legally work in the UK. Examples of documents that maybe provided include:

- A UK passport confirming that the holder is British Citizen (or citizen of another EEA country – including Switzerland),
- Passport or other travel document endorsed to show that the holder is allowed to stay in the United Kingdom and undertake paid employment,
- Full UK Birth / Adoption Certificate,
- An Immigration Document issued by the Border and Immigration Agency to the holder which indicates that the person named in it can stay in the United Kingdom and undertake paid employment,

A work permit or other approval to take employment issued by the Home Office or the Border and Immigration Agency when produced in combination with either a passport or another travel document endorsed to show the holder is allowed to stay in the United Kingdom and is allowed to undertake paid employment.

This list is not exhaustive, and other documents may be accepted – further information will be provided by the Licensing Office on request.

Where an applicant is subject to immigration controls, a licence will not be issued for longer than the period that the applicant has permission to undertake paid employment in the United Kingdom.

6. Hackney Carriages and Private Hire Vehicles

6.1 Application process

The Council will consider all applications for vehicle licences on their own merits. The procedure for dealing with applications for Private Hire and Hackney Carriage vehicles is set out in Appendix H.

The applicant must submit the following to the Council in order for the application to be considered valid:

- The vehicle application form;
- The appropriate fee;
- The original of the Vehicle Registration Document (Log Book/V5) certificate of registration for the vehicle (the new keeper's supplement section of the V5 document will be accepted in the case of vehicles that are not licensed at the time that the application is made, and the vehicle has recently been purchased by the applicant (documentary evidence will be required). Licences will not be renewed unless the full V5 document is made available to the council at the time of application);
- The original insurance certificate or insurance cover note for the vehicle (this must be provided before the licence is issued)
- Confirmation from the Council's appointed vehicle testing station that the vehicle meets both the Council's vehicle specification and the vehicle examination requirements.

In addition:

- Any vehicle not manufactured with European Whole Vehicle Type Approval will be required to undergo Single Vehicle Approval (SVA) testing and evidence of that testing and the vehicle having obtained SVA produced to the licensing office.

The application must be made on the correct application form and all supporting documents completed in full.

Insurance Write Offs

A licence will not be granted to a vehicle if it has sustained accident damage resulting in structural distortion beyond the accepted limits of the vehicle manufacturer, or, has been disposed of under an insurance salvage agreement (categories A, B, S and N).

New salvage categories

- **A** Scrap – complete vehicle crushed without any components being removed.
- **B** Break – body-shell/chassis crushed without any structural components being removed.
- **S** Structurally damaged but repairable.
- **N** Non-structurally damaged but repairable.

You might also hear the terms 'actual loss' to describe categories A and B, and 'constructive loss' to describe C and D (S and N).

If a licenced vehicle is written off by an insurance company the council must be informed and the vehicle will not be re-licenced and a new licence application will be required for the replacement vehicle.

6.2 Grant and renewal of licences

The vehicle must be submitted for a compliance test at the appointed test station. A Certificate of Compliance will be issued and must be produced as evidence that the vehicle meets the required standard. At this stage a vehicle licence will be issued, subject to the completion of all other elements of the application process and the provision of a valid certificate of motor insurance.

Vehicle licences will be issued for a one year period, commencing on the date that the licence is issued. The vehicle will be subject to a vehicle inspection every 6 months at the Council's appointed testing facility (commonly referred to as an intermediate test).

6.3 Vehicle age and exhaust emissions

Environmental protection legislation requires local authorities to review and assess air quality on a regular basis. Where air quality falls below the national standards, the Council is required to declare an Air Quality Management Area (AQMA) and develop a plan which identifies how air quality standards will be improved.

In Scarborough, vehicle exhaust emissions are a principal source of air pollution and this has resulted in the creation of just one AQMA along major roads in Staithes. In this area of Scarborough, the levels of annual mean nitrogen dioxide do not comply with EU and national law. There is potential for the UK Government to be fined for breach of the EU limit values post 2015, and infraction proceedings have already been instigated by the European Commission.

There are approximately 108,000 residents in Scarborough's.

Public transport is a significant element of air pollution in Scarborough Borough Council due to vehicle emissions. As with other forms of public transport, emissions from the taxi / Private Hire fleet are among the sources which can be regulated and as such are a priority to be addressed with the aim of reducing levels of air pollution and helping to improve public health.

Scarborough Borough Council's Taxi & Private Hire Policy includes the measure of improving the Hackney Carriage and Private Hire fleet by accepting new accessible ULEVs on to the fleet. The Council aims to ensure that Hackney Carriage and Private Hire vehicles are of a good standard. It recognises that the high mileage and general wear and tear sustained by vehicles will have an impact on their continued serviceability over a period of time.

Please refer to Appendix I –Vehicle Age & Emissions

6.4 Insurance

It is required that all insurance documents must be shown before a licence is issued.

This requires:

- A valid certificate of insurance or cover note confirming that insurance is in place for each driver of the vehicle and specifying use as either a Hackney Carriage or Private Hire Vehicle.
- A Hackney Carriage vehicle requires insurance to cover public hire and hire and reward.
- A Private Hire vehicle requires insurance to cover hire and reward.
- A cover note will be accepted and the licence will be issued on the understanding that a certificate of insurance will be produced at the earliest opportunity.

The council will undertake periodic auditing of licensed vehicles to verify that the vehicle is appropriately insured.

6.5 Vehicle specification

The Council has set down a series of specifications. A vehicle will need to comply with these specifications prior to it being accepted as a licensed vehicle.

The specification for Private Hire vehicles is set out in Appendix J and for Hackney Carriages at Appendix K.

6.6 Conditions

The Council is empowered to impose such conditions as it considers reasonably necessary in relation to the granting of Hackney Carriage or Private Hire Vehicle licences.

These are set out in Appendix L for Private Hire Vehicles and Appendix M for Hackney Carriages.

However, where it is considered necessary, additional conditions may be imposed. In considering what is reasonably necessary the Council will take into account the aims and objectives of this policy.

6.7 Identification of vehicles as Private Hire Vehicles or Hackney Carriages

The Council requires Hackney Carriages and Private Hire vehicles to clearly indicate to the public that they are licensed vehicles. Therefore, they must be clearly distinguishable from other vehicles and each other. The Council believes that clear signage, types of vehicle, together with colour of the vehicle, can achieve this.

a) Hackney Carriage

- The exterior colour of all Hackney Carriages must be white.

b) Private Hire Vehicles

- The TX4 or similar vehicle (commonly referred to as a ‘London cab’) will not be licensed as a Private Hire vehicle.
- The minibus variants of approved Hackney Carriage vehicles (such as the Mercedes Vito) can be licensed as Private Hire vehicles but they must not be white.
- The exterior of all Private Hire vehicles can be any solid single colour excluding white

The Council has set standards on the acceptable type of signage for Private Hire Vehicles and Hackney Carriages. These can be found in the Private Hire Vehicle /Hackney Carriages conditions set out in Appendix L for Private Hire Vehicles and Appendix M for Hackney Carriages. They include:

- the permitted position of licence plates
- positioning of permanent door signs for vehicles
- required wording for door signs on vehicles
- requirements for the display of notices in vehicles
- other notices / markings that the Council will require licensed vehicles to display

6.8 Fire extinguishers

All vehicles are required to be equipped with a fire extinguisher that conforms to the specification as stated in the Council’s conditions.

6.9 Tyres

Tyres are the vehicle’s only point of contact with the road, so it is essential that they are in good condition.

The Council requires that all licensed vehicles to adhere to the following provisions with regard to tyres:

- Tyre treads are designed to efficiently and effectively remove water from the road surface and provide maximum grip. All tyres fitted to the vehicle must have at least 2.0 mm tread depth throughout a continuous band in the centre 3/4 of the tread and around the entire circumference of the tyre.
- Tyres fitted to licensed vehicles should not be more than 5 years old
- Tyre fitted to a motor vehicle or trailer must be fit for purpose and be free from any defects which might damage the road or endanger any person. Fit for purpose means that a tyre must:
 - be compatible with the types of tyres fitted to the other wheels,
 - not have any lump, bulge or tear caused by separation or partial failure of the structure,
 - not have a cut or tear in excess of 25mm or 10% of the sectional width of the tyre, whichever is the greater, and which is deep enough to

- reach the ply or cord,
 - not have any part of the ply or cord exposed.
- Tyres must be correctly inflated to the vehicle / tyre manufacturer's recommended pressure.
- All replacement tyres fitted to licensed vehicles must be new (i.e. not have been used previously on any other vehicle) and have been fitted by a reputable vehicle maintenance company / contractor. Vehicle proprietors are required to retain invoices / receipts to show that any tyre that is purchased meets this requirement.
- The fitting of part worn tyres to licensed vehicles is not permitted.
- 'Space saving' spare wheels must only be used in an emergency, and then only in accordance with the manufacturer's instructions. Should the use of a 'space saving' spare wheel become necessary during a period of hire then the journey may continue, but the wheel must be replaced before another journey commences.

6.10 Accidents

If at any time the vehicle is involved in an accident, however minor, the driver must inform the Council of this fact as soon as possible and in any event within one working day (by telephone or email). An accident report form will then need to be completed and submitted to the Council within five working days of the accident occurring (except in exceptional circumstances when the report must be made as soon as possible).

The vehicle must be presented for inspection at the Council's authorised testing station as soon as possible after the accident has taken place – the appointment will be arranged by the Council who will notify the vehicle proprietor of the date and time. Failure to present the vehicle for the appointment may result in the vehicle's licence being suspended until such time as the vehicle is presented for examination.

If the vehicle is so damaged that it cannot be driven, then the vehicle proprietor must inform the Council of this fact – the Council will then advise the proprietor of the action to be taken. In such cases the proprietor is advised to take photographic evidence of the vehicle's condition that clearly illustrates the reasons why the vehicle cannot be driven / presented for examination.

Failure to do so may result in Licensing Enforcement Penalty Points being issued.

6.11 Vehicle examination and testing requirements

Hackney Carriage and Private Hire vehicles examination and testing requirements are set out in Appendix N. The frequency of intermediate compliance tests is outlined in Appendix I.

6.12 Meters

All Hackney Carriages must be fitted with an approved meter.

The Council will from time to time publish a list of meters approved and acknowledged by the Public Carriage Office for use to calculate fares.

Meters used to calculate fares must be accurate, display the correct time and be capable of displaying:

- In the case of Hackney Carriages, the various tariffs as approved by the Council (including extra charges recoverable under the approved Table of Fares). The meter shall be calibrated and set to the Council's agreed charging distances and tariffs currently in force.
- In the case of Private Hire Vehicles, any scale of charges provided by the operator of the vehicle.

Meters will be checked for accuracy by a measured mile distance or by waiting time.

Meters must be positioned in order that the fare must be clearly displayed to the passenger throughout the journey.

Meters in use must not facilitate fraudulent use. Any signs of tampering including the breaking of any seals will result in a suspension notice being issued immediately. For the suspension notice to be removed, the vehicle meter must have been resealed and calibrated by an approved meter company and presented to the Council for inspection.

Private Hire Operators and / or drivers may agree a cost for the journey with the customer prior to the journey commencing. In this situation, the price quoted is the price that must be charged – there is to be no deviation from this price without the agreement of the customer. On occasions where a price has been not been agreed prior to the journey commencing, the fare charged must be that which is reflected on the meter where the vehicle is equipped with a meter.

6.13 CCTV

Suitable equipment, capable of recording both audio and video, may be installed in all licensed vehicles. The system must meet or exceed the council's specification for taxi camera systems which can be found in Appendix T of this policy. The system must be operational at all times that the vehicle is being used as a licensed vehicle (i.e. for the carriage of fare paying passengers). The system does not need to be operational during other times (for example when being used for domestic purposes).

Video recording must be active at all times. Audio recording must be active in any of the following circumstances:

- An unaccompanied child (i.e. under 18) or vulnerable adult is being carried in the vehicle, or
- Where the driver and customer are involved in a dispute or the driver feels threatened by the behaviour of a passenger. Activation of audio recording must be triggered by the driver pressing a switch / button. Audio recording will continue until such time as the button / switch is pressed again. This switch

will activate / deactivate audio recording independent of the passenger's audio activation button / switch.

There must also be the facility for the passenger to activate audio recording (independent of the driver) should the passenger wish to do so. Activation of audio recording must be triggered by the passenger pressing a switch / button. Audio recording will continue until such time as the button / switch is pressed again. This switch will activate / deactivate audio recording independent of the driver's audio activation button / switch.

Once activated (by either passenger or driver), the audio recording must continue for an uninterrupted period until it is deactivated.

There must be an indicator located within the vehicle that is clearly visible to the passenger and clearly shows that audio recording is taking place.

At the end of journey when the passenger leaves the vehicle, audio must be deactivated before another passenger enters the vehicle. If appropriate it must be reactivated should any of the situations above arise in relation to this new journey.

6.14 Additional provisions for Private Hire vehicles only

6.14.1 Wheelchair accessibility

In addition to all other licensing conditions, any applicants seeking the grant of a Private Hire vehicle in which it is intended to carry passengers who are seated in a wheelchair must present a vehicle which has:

- M1 classification and comply in all respects to EC Whole Vehicle Type Approval (ECWVTA)
- Suitable fittings for the securing of the wheelchair and any passengers seated in them
- access and egress via suitable side or rear doors.
- New to fleet vehicles must be side door access and egress

6.14.2 Advertisements

No advertising is allowed on Private Hire vehicles.

6.14.3 Limousines and executive hire

Any limousines with 8 seats or less must be licensed as a Private Hire Vehicle

Vehicles used for this purpose must meet the requirements for Private Hire Vehicles.

These vehicles must display appropriate signage, issued by this Council, which states details of the vehicle, issue date and the number of persons allowed to be carried. This disc must be displayed on the front and rear windows of the vehicle.

Drivers of limousines and executive vehicles must complete the licensing application process in the same way as any other licensed driver.

Foreign Vehicles: All vehicles used for these purposes must meet relevant British or European standards. Any alterations to a manufacturer's standard specification will require M1 EWVTA. Any subsequent changes to the vehicle will invalidate this approval.

When a vehicle has been imported into this country, the importer must produce a declaration from the testing authority (DVSA) that the vehicle will never carry more than eight passengers.

6.14.4 Special events vehicles and courtesy cars

The Council considers the following types of vehicles to be 'special event vehicles' in the context of licensing:

- decommissioned emergency service vehicles
- vintage vehicles
- other non-standard type converted vehicles used for special events.

The above list is not exhaustive, and other types of vehicle may be considered from time to time. When considering an application for a special event vehicle, the Council will have regard to the general requirements for Private Hire vehicles contained within this policy and relevant appendices.

Courtesy cars used for transporting customers to and from specific venues such as hotels and nightclubs, whether operated with or without charge to the customer, are considered to be Private Hire vehicles. These vehicles must be licensed as Private Hire vehicles, driven by Private Hire drivers and the journey must be booked via a Private Hire operator.

6.15 Additional provisions for Hackney Carriage vehicles only

6.15.1 Limitation on numbers

The main aim of Council's licensing of the Hackney Carriage and Private Hire trade is the protection of the public. The Council is aware that the public should have reasonable access to Hackney Carriage and Private Hire services, because of the part they play in local transport provision. Disabled groups are particularly reliant on Hackney Carriages as a means of transport.

Licensing authorities have no power to restrict the number of Private Hire vehicles that they licence.

Licensing authorities can restrict the number of Hackney Carriage licence plates they issue if they are satisfied that there is no significant unmet demand for taxi services in their area.

This Policy Advocates delimiting of restrictions and New to Fleet Hackney Vehicles to be restricted to Wheelchair Accessible Vehicles that are also ULEVs

6.15.2 Wheelchair accessibility

In addition to all other licensing conditions, any applicants seeking the grant of a Hackney Carriage vehicle in which it is intended to carry passengers who are seated in a wheelchair must present a vehicle which has:

- M1 classification and comply in all respects to EC Whole Vehicle Type Approval (ECWVTA)
- Suitable fittings for the securing of the wheelchair and any passengers seated in them
- access and egress via suitable side or rear doors.
- New to fleet vehicles must be side door access and egress

6.15.3 Advertisements

The Council will allow limited advertising on Hackney Carriages. Advertising on any other type of vehicle is not permitted. Advertisements must be accordance with the requirement set out in Appendix O.

6.16 Taxi ranks

Taxi Rank positions are agreed and defined in conjunction with North Yorkshire County Council Highways Department and the byelaws see Appendix E.

Taxi ranks are to be used by Hackney Carriages whilst waiting for their next hire. They are not to be regarded as parking places.

Private Hire Vehicles are not permitted to park on taxi ranks, nor must they allow customers to alight from their vehicle on a taxi rank.

7.0 Fares

7.1 Hackney Carriages

The Hackney Carriage Table of Fares (“the tariff”) is set by the Council and sets the maximum fare that can be charged by Hackney Carriage drivers for journeys within the Borough which can be negotiated downwards by the hirer for journeys. The hirer may agree to the fare for a journey which ends outside the Borough being charged other than at the metered rate.

A fares tariff is enforceable as a byelaw and it is an offence for any person to charge more than the metered fare.

The Council will review Hackney Carriage fare scales from time to time in liaison with the Hackney Carriage Proprietors. A notice of any variation to the maximum fare shall be advertised by the Council.

A table of authorised maximum fares will be provided to each Hackney Carriage licence holder, which must then be displayed in each vehicle so that it is easily visible to all hirers.

Drivers must, if requested by the passenger, provide written receipts for fares paid.

7.2 Private Hire Vehicles

The Council is not able to set fares for Private Hire vehicles.

Private Hire Operators that use licensed vehicles fitted with a fare meter must provide the Council with a current table of fares. This table must also be displayed in each Private Hire vehicle so that it is easily visible to all hirers.

Drivers must, if requested by the passenger, provide written receipts for fares paid.

8 Operators

8.1 Requirement for a licence

A licensed hire vehicle must only be dispatched to a customer by a Private Hireoperator who holds an operator's licence. Such a licence permits the operator to make provision for the invitation or acceptance of bookings for a licensed hire vehicle.

A Private Hire operator must ensure that every licensed hire vehicle is driven by a person who holds a licence issued by the same Authority that issued the vehicle licence. This authority must be the same authority that issued the operator's licence.

Any person who operates a Private Hire service must apply to the Council for a Private Hire Operator's Licence. The objective in licensing Private Hire operators is the safety of the public, who will be using operators' premises, and vehicles and drivers, arranged through them.

Applications for Operator licences shall be made on the prescribed form, together with the appropriate fee. The Council will then decide whether the applicant is a fit and proper person to hold an Operator licence.

An operator's licence is required for the purpose of making provision for the invitation or acceptance of bookings for a private hire vehicle. The operator's licence shall remain in force for a period of five years unless the LA specifies a lesser period, revokes or suspends the licence. The licence is not transferable.

8.2 Fitness and propriety

The Council will only issue licences to applicants that are deemed to be fit and proper. In assessing this, the Council will have regard to the following:

- Criminal record (including convictions, cautions, warnings and reprimands),
- Factors such as demeanour, general character, non-criminal behaviour, honesty and integrity,
- Previous conduct (particularly in cases where the applicant holds or has previously held a licence issued by Scarborough Borough Council),
- Business practices demonstrated by the applicant (for example standard of record keeping, compliance with other regulatory requirements, financial practices etc.)
- The Public Sector Equality Duty

In addition the Council will also consider further information sources such as the Police (including abduction notices), Children and Adult Safeguarding Committees, other licensing authorities and statutory agencies.

If an application is received from a person that is not a driver licensed by

Scarborough Borough Council then the applicant will be required to provide a Basic Disclosure from the Disclosure and Barring Service, and undertake the council's Child and Adult Safeguarding Awareness Training (as required by licensed drivers).

It is recognised that Private Hire Drivers and Operators are not necessarily the only contact points for customers. For example, a person taking bookings will be responsible for deciding which driver to send to which user; a position that could be exploited.

The Council has a responsibility to ensure that staff members do not pose a risk to the public and therefore, all ancillary staff that take bookings and dispatch vehicles for the Operator are required to provide a Basic Disclosure Check from the Disclosure and Barring Service.

The operator has a responsibility to keep a register of all staff that take bookings or dispatch vehicles and keep an accurate record of Basic DBS checks for all individuals listed. These records are required to be provided to the Council by the relevant Private Hire Operator, for all such individuals.

8.3 Insurance

Before an application for a Private Hire operator's licence is issued, the applicant shall produce evidence that they have taken out appropriate public liability insurance for the premises to be licensed. Where necessary, operators must also hold employers liability insurance.

8.4 Conditions

The Council has power to impose such conditions on an operator's licence, as it considers reasonably necessary and these are set out at Appendix Q.

However, where it is considered necessary, additional conditions may be imposed. In considering what is reasonably necessary the Council will take into account its aims and objectives of this policy.

Operators must only use vehicles and drivers licensed by Scarborough Borough Council.

Failure of the operator to adhere to the conditions of licence will lead to enforcement action and / or the issue of enforcement penalty points.

8.5 Use of operator name following revocation of licence

Where an operator licence is revoked by the Council, the name (or a similar name) of the Private Hire company associated with that licence cannot be used by another operator until such time as six months has elapsed since the date of revocation or the date on which all appeal processes have been concluded (whichever is the longer).

8.6 Operator responsibility in relation to vehicles / drivers that are operated

The operator is responsible for all persons (and vehicles) that are employed, contracted or otherwise used in the course of their business. To that end, the operator must undertake sufficient checks to satisfy themselves that only suitable drivers, administrative staff and vehicles are used (and continue to be used) in the course of their business. The failure of an operator to ensure that appropriate checks are carried out may call into question the operator's fitness and propriety. In addition, a failure to take appropriate action in relation to drivers that persistently breach licence conditions may also be detrimental to the continued fitness and propriety of the operator.

The following are examples of circumstances that may affect the fitness and propriety of a Private Hire operator:

- Licensed drivers or vehicle proprietors persistently (either individually or as a group) breaching the conditions of their licence whilst working for / under the instruction of a particular operator.
- Vehicles being operated that are in an unsuitable condition.
- Failure by the operator to satisfactorily address concerns in relation to licensed drivers / vehicle proprietors (including matters related to child / adult safeguarding).
- Employment of ancillary staff where a basic DBS check has not been completed for the individual, or the results of which may pose a risk to the public.

Operators may be issued with enforcement penalty points as a result of the actions of the drivers / vehicle proprietors that are working for them or under their control.

The council expects licensed operators to support the council in its aims to raise awareness of and tackle issues around child and adult safeguarding. Operators must remain alert to these and similar issues, failure to do so will call into question the fitness and propriety of the operator.

9. Fees

9.1 Fee Structure

The legislation provides that fees charged to applicants can cover most of the costs to the Council in providing the licensing services. This includes the administration of applications, and ensuring compliance by licensees within the Hackney Carriage and Private Hire trade.

The fees are reviewed at the start of each calendar year and confirmed by the Council ahead of the start of each financial year i.e. 1st April. The Council, however, can review the fees at any time and this policy proposes that the fees will be reviewed as part of its implementation.

10. Compliance and enforcement

10.1 Enforcement

The principal purpose of Hackney Carriage and Private Hire licensing is to protect the public and promote public safety.

In doing this, the Council aims to provide the delivery of efficient, targeted and proportionate regulatory services to provide a positive approach to those regulated.

The General Enforcement Policy for the Council embeds its principles of enforcement. This is attached at Appendix R.

In April 2014 a new statutory Regulators' Code was brought into force and, accordingly the Council should:

- carry out their activities in a way that supports those they regulate to comply and grow
- provide simple and straightforward ways to engage with those they regulate and hear their views
- base their regulatory activities on risk
- share information about compliance and risk
- ensure clear information, guidance and advice is available to help those they regulate meet their responsibilities to comply
- ensure that their approach to their regulatory activities is transparent

A range of tools and powers, including mystery shopping, to ensure compliance will be used. Compliance assessment is ultimately to ensure that the driver or operator is a "fit and proper" person to hold a licence and/or the vehicle is safe. The safety of passengers, pedestrians and other road users is paramount.

Where appropriate referrals will be made to other agencies such as the Police, HMRC and both Adult and / or Child safeguarding teams.

The Council will respond to complaints made by the public and referrals from other agencies & bodies. In addition officers will undertake proactive inspections and testing as either, day to day activity or as part of programmed operations.

Any breach of the required standards, policies and conditions may lead to suspension and/or revocations or the issuing of penalty points, suspension, and revocation of the licence or prosecution.

If the Council considers it necessary, in the interests of public safety, it may require a suspension or revocation of a licence to have effect immediately.

Once a licence has been suspended or revoked, the licence holder (or former licence holder) may appeal to the local Magistrates Court in order to challenge the council's decision. There is no other recourse available to the licence holder (or former licence holder) should they wish to have the

decision to suspend or revoke their licence reversed.

10.2 Enforcement Penalty points

The Council is considering the operation of a penalty point system of enforcement of specified breaches of byelaws, conditions of licence or other unacceptable behaviour specified as part of this policy. The penalty point system will apply to drivers, operators and vehicles on review of the licences in respect of this policy coming into force.

Licensing Enforcement Officers will be authorised to operate the scheme and issue points accordingly. Any review of historic licences can retrospectively allocate the penalty points for offences already noted on a licence holder's record. This draft policy seeks feedback on this idea.

10.3 Suspension of licence

Where an individual failure in meeting the vehicle conditions is detected an authorised officer may take immediate action to suspend the licence and require remedial action. This requires the service of a suspension notice and further use of the vehicle will be suspended until the defects have been remedied. The suspension will not be lifted until the vehicle has undergone a further test, at the proprietor's expense, and / or been passed as fit for use by the Council. Such notices will also be appropriately accompanied with a penalty point resolution.

In situations where there exists a serious risk of the safety of the public the Director or delegated officers, under delegated powers, is permitted to suspend or revoke the licence of a driver, vehicle or operator.

Where the Licensing Committee is satisfied that a person is no longer a 'fit and proper' person or is in breach of a condition of licence, they may suspend a driver's licence for any specified period.

When considering the revocation of any licence, the Licensing Committee will take into account all relevant facts and circumstances including the aims and objectives of this policy and the nature of the breach.

10.4 Refusal to renew a licence

The Licensing Committee may decide that appropriate action is not to renew the licence.

In circumstances where an applicant has not provided all relevant information or documents or has failed to comply with any of the requirements to renew a licence, an authorised officer will be permitted to refuse to renew the licence.

The person applying for a licence will have the opportunity to appeal this decision to the Magistrates Court.

10.5 Prosecution of licence holders

The Council will prosecute licence holders for relevant offences in accordance with

the statutory Regulator's Code and the General Enforcement Policy.

10.6 Appeals

Any notifications of enforcement actions will include information on how to appeal and to whom the appeal is made, if a right of appeal exists.

10.7 Service Requests and Complaints

The Council has a procedure whereby the general public can submit service requests / complaints / concerns about licensed drivers and operators. This is accessible via the submission of a report form via the Council's website.

In considering the most appropriate action to take in relation to a complaint, the credibility of both the complainant and the licence holder will be taken into account.

In addition if anyone wishes to complain about the service provided by the Council there is a Complaints procedure available on the website.

Appendix A

Driver Licence Application Process

Scarborough Borough Council will only issue licences to those applicants that it considers to be 'fit and proper' to hold a licence.

Applicants are expected to act with honesty and integrity throughout the application process, and must therefore fully and accurately disclose any information that is requested. This includes information regarding previous convictions, warnings and reprimands, current investigations and pending criminal proceedings.

There is no statutory definition of what constitutes a 'fit and proper' person, however Scarborough Borough Council will take a number of factors into account, and set specific criteria for applicants, when considering a licence application. These factors and criteria are outlined below and other guidance including that from the government and Local Authority guidance will also be taken into account on determining the safe and suitability of applicants :

1. Applications will only be accepted from applicants that have held a full UK driving licence for at least two years (please note that the requirement is to have held the full licence for at least two years, not two years since the date that you passed your driving test). Applicants that hold full EU licences will have the length of time that they have held such licences taken into consideration, however holders of EU licences will only be issued with a licence for 12 months – the licence will not be renewed unless the EU licence is exchanged for a full UK licence (as required by national legislation).
2. Applicants (who are not existing licence holders) that submit their application for a drivers licence on or after the date on which this policy comes into effect will be required to provide evidence of the following qualifications / skills to the council before a licence will be issued:
 - Satisfactory completion of an approved training / awareness raising course in relation to safeguarding children and vulnerable people. This course must have been approved by Scarborough Borough Council Licensing Service.
 - Ability in English and Maths will be assessed using our driver knowledge test and this section will be subject to a sub pass mark of 80% to have a completed pass grade.

In addition to the above, all drivers will be required to undertake an awareness raising session on safeguarding children and vulnerable adults within 3 months from the date that this policy is implemented. This training must be approved by the council (such as the training delivered by the Corporate Transport Unit as part of the home to school contract provision). Drivers that can evidence that they have undertaken this training within the previous 12 months will be exempt from this requirement.

3. Applicants will be required to obtain an Enhanced DBS Disclosure Certificate from the Disclosure and Barring Service This can be done by using the North Yorkshire online DBS service here:

<https://www.northyorks.gov.uk/apply-employment-check>

A fee for verification must be made to Scarborough Borough Council Licensing Department for verification of this online DBS application as part of the Licence application process.

The contents of this certificate will be assessed in accordance with the council's policy on convictions in determining the fitness and propriety of the applicant as per Appendix C

Licences will not be granted unless the applicant is able to provide at least five years UK address history except in the following cases:

- The applicant is able to provide a document from an EU member state, which is the equivalent of a UK issued Enhanced DBS Certificate
- If this cannot be provided then an official document provided by the embassy of a non-EU member state will be acceptable, provided that the document can be verified and is comparable to a UK issued EnhancedDBS Certificate

In either of the cases above, the onus is on the applicant to obtain such a document, and the applicant remains liable for all associated costs.

Once it has been issued by the DBS, the Council will consider an Enhanced Disclosure Certificate to be valid for a period of 1 months from the date that it was printed. This is subject to the certificate having been obtained through the Council's licensing service as part of a driver or operator application. The Council reserves the right to request a new Enhanced DBS check should it consider it appropriate to do so.

Applicants are required to sign up to the online DBS update service <https://www.gov.uk/dbs-update-service> at their expense currently £13 per year. This is so that the council can verify there are no changes to their DBS status at any time it is deemed necessary and in any case approximately every 6 months .These checks are part of our due diligence.

4. Applicants are required to have passed the council's taxi and private hire driver knowledge test. This test will assess the applicant's knowledge of the Scarborough Taxi & Private Hire Policy and abilities in relation to:
- i. Literacy and numeracy
 - ii. Child / adult safeguarding awareness
 - iii. Disability awareness
 - iv. Road Safety
 - v. Basic vehicle maintenance
 - vi. Customer care / customer awareness
 - vii. Local knowledge

A fee is payable by the applicant prior to them undertaking the test. If the applicant fails the test then they may retake it at a later date (subject to the

payment of the appropriate fee). However, if an applicant fails the test after taking it for a third time they will not be permitted to take the test again until at least 12 months has passed since the date of the most recent failure.

5. Applicants are required to satisfactorily complete a driver assessment test to DVLA standards. Details of the test will be provided to the applicant by the Licensing Office.
6. All applicants must agree to the council verifying their DVLA driving licence, this may be done via a third party organisation and will require the applicant to give their consent to such a check being carried out.
7. Applicants whose DVLA driving licence is endorsed with more than 6 penalty points will be required to attend a hearing of the Licensing Sub Committee in order for their application to be determined.
8. Applicants shall provide a completed medical examination form supplied by the Council and completed by their own General Practitioner's (GP) practice on first application. A new medical will then be required every 3 years until the driver reaches the age of 65 when a medical will be required annually. In exceptional circumstances, and with prior agreement from the Licensing Manager, a medical assessment can be carried out by another registered GP practice as long as the applicant's medical history has been viewed and assessed.

There will be a fee for this examination and this charge is the responsibility of the applicant.

The Council may also request a medical at any other time it feels may be necessary to ascertain a persons' fitness to drive a licensed vehicle. There will be a fee for this examination and this charge is also the responsibility of the applicant.

Applications should be made on the appropriate form(s), and should include the following:

- 5 years' address history for the applicant
- One colour passport standard photograph, which is a good likeness of the applicant
- DVLA driving licence & photo-card (or paper licence if the photocard licence is not held by the applicant)
- Documents required as part of the DBS check
- Proof that the applicant is legally permitted to work in the UK
- the correct fees (please note that any fees for pre-application tests etc are non-refundable)
- any other documents an officer may ask you for to help progress your application.

Please Note:-

In certain cases, applications may need to be referred to the Council's Licensing Committee, each application will be guided by our policy and the licensing officer dealing with the application. In these cases the Licensing Committee make a decision on what length of licence to grant; or to refuse to grant a licence. This is usually if you have any conviction or police caution, reprimand or warning on your DBS record, but may also be for other reasons.

Once a licence expires, the applicant will be required to complete the application as if it were for a grant of a licence (i.e. the whole process must be undertaken from the start, regardless of how many years the applicant has held a licence previously).

When a licence holder applies to renew their licence, before a decision is made to refuse or grant a licence, they must be reassessed in the following areas:

- The Council's Taxi and Private Hire Knowledge test
- The Council's safeguarding awareness course
- A driver assessment to DVLA standards.
- *If a licence is not renewed prior to its expiry (or if a renewal application is received, but the application is not determined prior to the expiry of the licence) then that person will no longer be able to lawfully operate as a licensed driver.*

Appendix C

Relevance of Previous Convictions Policy

1. Introduction

- 1.1 This policy provides guidance to the Licensing Committee and its sub-committee on the criteria to take into account when determining whether or not an applicant or an existing licence holder is a fit and proper person to be granted, have renewed or continue to hold a Hackney Carriage and / or Private Hire Driver Licence. Whilst criminal convictions will play a significant part in the Licensing Authority's determination on whether an individual is fit and proper or not, the Council will also take into account other factors such as demeanour, general character, non-criminal behaviour, driving abilities, and other police information.
- 1.2 Whilst this policy primarily applies to the determination of driver licences, the principles within it are equally applicable to the determination of Private Hire Operator and Vehicle / Hackney Carriage licence applications. Consequently, where a conviction (as defined below) is considered relevant to the fitness and propriety / suitability of an individual to hold (or be granted) a Private Hire Operator Licence or a vehicle licence, then this policy must be referred to in the determination of that licence /application.
- 1.3 It is the responsibility of the Council to issue Hackney Carriage and Private Hire licences under the Local Government (Miscellaneous Provisions) Act 1976. In exercising this duty, the Council will consider the need to ensure the safety of the public as its primary consideration. Licences will not be issued unless the person is 'fit and proper'.
- 1.4 This Appendix C will put into effect and adopt the Statutory Taxi & Private Hire Vehicle Standards as published by the Department for Transport in July 2020 and in particular in the annex that begins on page 35 of those standards –
- Assessment of Previous Convictions**
- “ Legislation specifically identifies offences involving dishonesty, indecency or violence as a concern when assessing whether an individual is 'fit and proper' to hold a taxi or private hire vehicle licence. The following recommendations to licensing authorities on previous convictions reflect this.

Authorities must consider each case on its own merits, and applicants/licensees are entitled to a fair and impartial consideration of their application. Where a period is given below, it should be taken to be a minimum in considering whether a licence should be granted or renewed in most cases. The Department's view is that this places passenger safety as the priority while enabling past offenders to sufficiently evidence that they have been successfully rehabilitated so that they might obtain or retain a licence.”

1.5 In seeking to safeguard the safety of the public. The council will be concerned to ensure:

- That a person is a fit and proper person in accordance with Sections 51 and 59 of the Local Government (Miscellaneous Provisions) Act 1976 (PartII)
- That the person does not pose a threat to the public
- That the public are safeguarded from dishonest *and criminal* persons
- The safety of children, young persons and vulnerable adults

1.6 The term “Fit and Proper Person” for the purposes of taxi and private hire licensing is not legally defined. However, in determining whether a person is fit and proper to hold a licence, those tasked with determining licences/ applications are asking the following question of themselves:

Without any prejudice, and based on the information before you, would you allow a person for whom you care, regardless of their condition, to travel alone in a vehicle driven by this person at any time of day or night?

All decisions on the suitability of an applicant or licensee should be made on the balance of probability. This means that an applicant or licensee should not be ‘given the benefit of doubt’. If the Committee or delegated officer is only 50/50 as to whether the applicant or licensee is ‘fit and proper’, they should not hold a licence. The threshold used here is lower than for a criminal conviction (that being beyond reasonable doubt) and can therefore include information that goes beyond criminal convictions.

To assess the suitability of an applicant (and to inform decision makers when answering the question above), the Council will undertake whatever checks and apply whatever processes it considers necessary to ensure that licences are not issued to, or used by, unsuitable people. In assessing the suitability of an applicant or licence holder, the Council will take into consideration the following factors:

- Criminality
- Period of holding a driver’s licence
- Number of endorsed driving licence penalty points
- Right to work
- Medical fitness
- Standard of driving/ driving ability
- The conduct of the applicant in making the application
- The previous licensing history of existing/ former licence holders.

In addition, the Council will also consider further information sources such as the Police (including abduction notices), Children and Adult Safeguarding Committees, other licensing authorities and statutory agencies.

- 1.7 This policy provides guidance to any persons, but specifically:
- Applicants for a driver's licence
 - Existing licensed drivers whose licences are being reviewed
 - Licensing officers
 - Members of the licensing committee/sub-committee
 - Magistrates and Judges hearing appeals against local authority decisions
- 1.8 In considering this guidance, the Council will be mindful that each case must be considered on its individual merits and, where the circumstances demand, the committee may depart from the guidelines.
- 1.9 In this policy, the word "Conviction" is to be defined as including convictions, cautions, warnings, reprimands and other relevant information. In this policy 'from date sentence has ended' is taken to be the date which is reached once the whole of the period as sentenced by the court has elapsed and not the length of time served by the applicant. For example, if a sentence is five years imprisonment then the date that the sentence ends will be five years from the date of sentencing – regardless of the amount of time actually served by the applicant. If the sentence is amended by a court at a later date, then this new sentence becomes relevant to this policy. The term 'since completion of sentence' is to be construed in the same way.
- 1.10 In this policy, the word applicant refers to either new applicants, existing licence holders who are seeking renewal and existing licence holders that are the subject of periodic auditing. It also includes existing licence holders who are being considered by the Council by virtue of offending activity having recently come to light.

The Council reserves the right to overturn a decision that has previously been made, or refuse a renewal of a licence, where clear errors are discovered.

2. General Policy

- 2.1 Whilst the Committee may consider that a person with a conviction for a serious offence may not need to be automatically barred from obtaining a licence, it is however to be normally expected that the applicant would be required to:
- a. Remain free of conviction for an appropriate minimum period as detailed below; and
 - b. Show adequate evidence that they are a fit and proper person to hold a licence (the onus will be on the applicant to produce such evidence). Simply remaining free of conviction may not generally be regarded as adequate evidence that a person is a fit and proper person to hold a licence.

- 2.2 The standards and criteria set out in paragraphs 6 to 16 below are those that would normally be applied to applications and licences. The Council may depart from these criteria; however, it must only do so in exceptional circumstances. The otherwise good character and driving record of the applicant or licence holder will not ordinarily be considered as exceptional circumstances.

3. Appeals

- 3.1 Any applicant refused a driver's licence, or who has their licence suspended or revoked on the grounds that the Council is not satisfied they are a fit and proper person to hold such a licence has a right to appeal to the Magistrate's Court within 21 days of the notice of refusal [Local Government (Miscellaneous Provisions) Act 1976, s 77 (1)].

4. Powers

- 4.1 Section 61 of the Local Government Miscellaneous Provisions Act 1976 allows the Council to suspend, revoke or refuse to renew a licence if the applicant has been convicted of an offence involving dishonesty, indecency, violence; failure to comply with the provisions of the Town Police Clauses Act 1847; failure to comply with the provisions of Part II of the Local Government Act 1976; or any other reasonable cause.

- 4.2 The Rehabilitation of Offenders Act 1974 (Exceptions) Order 1975, allows the Council to consider all convictions recorded against an applicant or the holder of a Private Hire or Hackney Carriage driver's licence, whether spent or not. Therefore, the Council will have regard to all relevant convictions, particularly where there is a long history of offending or a recent pattern of repeat offending. Applicants need to be aware that, in accordance with this Act, all convictions, cautions, warnings and reprimands must be declared.

- 4.3 Under the provisions of Sections 51, 55 and 59, Local Government (Miscellaneous Provisions) Act 1976, the Council is required to ensure that an applicant for the grant or renewal of a Hackney Carriage and / or a Private Hire Vehicle driver's licence is a "fit and proper" person to hold such a licence. However, if an applicant has any convictions, warnings, cautions or charges awaiting trial, the council will look at:

- How relevant the offence(s) are to the licence being applied for;
- How serious the offence(s) were;
- When the offence(s) were committed;
- The date of the conviction, warning, caution etc.;
- Circumstances of the individual concerned;
- Any sentence imposed by the court;
- The applicant's age at the time of offence / incident leading to the conviction, warning, caution etc.;
- Whether they form part of a pattern of offending;
- Any other character check considered reasonable (e.g. personal references);

- Any other factors that might be relevant, for example:
 - The previous conduct of an existing or former licence holder;
 - Whether the applicant has intentionally misled the council or lied as part of the application process;
 - Information provided by other agencies / council departments.
- 4.4 Existing holders of driver's licences are required to notify the Council in writing within five working days of receiving a driving licence endorsement, fixed penalty notice, warning, reprimand, police caution, criminal conviction or other criminal proceedings (including their acquittal as part of a criminal case). In addition, licence holders must inform the council within 48 hours of their arrest for any matter (whether subsequently charged or not). Failure to do so will raise serious questions for the Council as to the honesty of the licence holder and will be taken into account as part of any subsequent renewal applications.
- 4.5 Applicants can discuss further what effect a caution/ conviction may have on any application by contacting Licensing via: licensing.services@scarborough.gov.uk
- 4.6 The Council conducts enhanced disclosures from the Disclosure and Barring Service (DBS) of any applicant for a driver's licence. Applicants applying for the grant or a renewal of a driver's licence will be required to obtain an enhanced disclosure at their expense. This includes any fees payable to the DBS. Further details are provided in Appendix A and Appendix B of this policy.
- 4.7 The Council is also entitled to use other records and information that may be available to it in determining applications or an entitlement to continue holding a licence. This may include information held by the Council or other licensing authorities, and information disclosed by the police under the Common Law Police Disclosure Scheme or other similar arrangements. Examples of such information sources that may be used include social care information, benefits payments etc.
- 4.8 It is an offence for any person knowingly or recklessly to make a false declaration or to omit any material in giving information required by the application for a licence (s57 Local Government (Miscellaneous Provisions) Act 1976). Where an applicant has made a false statement or a false declaration on their application for the grant or renewal of a licence, the licence will normally be refused.
- 4.9 Any offences or behaviour not covered by this Policy will not prevent the Council from taking into account those offences or behaviours.

5 Options when determining an application/licence

5.1 When determining an application, the Council have the following options:

- approve the application or take no further action
- refuse the application/revoke the licence/suspend the licence
- issue a warning which may include the use of enforcement penalty points
- For existing drivers who have accumulated 9 or more points on their DVLA driving licence, their drivers' licence will normally be suspended until the driver has successfully undertaken a driving test to DVSA standards. Such a test will be at the licence holder's expense.

6. Serious offences involving violence

6.1 Licensed drivers have close regular contact with the public. A firm line is to be taken with those who have convictions for offences involving violence. An application will be refused if the applicant has a conviction for an offence that involved the loss of life.

6.2 A licence will not be granted where the applicant has a conviction for:

- Murder
- Manslaughter
- Manslaughter or culpable homicide while driving
- Terrorism offences
- Any offences (including attempted or conspiracy to commit offences) that are similar to those above.

6.3 Consideration may only be given to the granting / issuing of a licence if at least 10 years have passed since the completion of any sentence and / or licence period following conviction or caution for an offence shown below:

- Arson
- Malicious wounding or grievous bodily harm which is racially aggravated
- Wounding
- Actual, or Grievous bodily harm
- Robbery
- Possession of firearm
- Riot
- Assault Police
- Violent disorder
- Any racially-aggravated offence against a person
- Common assault
- Any offence that may be categorised as domestic violence
- Any offences (including attempted or conspiracy to commit offences) that are similar to those above.

6.4 Consideration may only be given to the granting / issuing of a licence if at least

5 years have passed since the completion of any sentence and / or licence period following conviction for an offence shown below:

- Obstruction
- Resisting Arrest
- Criminal damage
- Any public order offence not specified in the 10 year section above . These offences include s3 Public Order Act 1986 (affray), s4 Public Order Act 1986 (fear or provocation of violence), s4A Public Order Act 1986 (intentional harassment, alarm or distress) and s5 Public Order Act 1986 (harassment alarm or distress
- Any offences (including attempted or conspiracy to commit offences) that are similar to those above.

6.5 A licence will not be granted if an applicant has more than one conviction for an offence of a violent nature.

7. Possession of a weapon

7.1 If an applicant has been convicted of possession of a weapon or any other weapon related offence, this will give serious concern as to whether the person is fit to carry the public.

7.2 Depending on the circumstances of the offence, at least 7 years must have passed since the completion of the sentence or caution, before a licence is granted.

8. Sexual and indecency offences

8.1 As licensed drivers often carry unaccompanied and vulnerable passengers, the council will take a strong line in relation to applicants or existing licence holders with convictions for sexual offences. All sexual and indecency offences will be considered as serious. Applicants with convictions for sexual or indecency offences that involve a third party will be refused a licence. Offences include:

- Rape
- Assault by penetration
- Offences involving children or vulnerable adults
- Trafficking, sexual abuse against children and / or vulnerable adults and preparatory offences (as defined within the Sexual Offences Act 2003).
- Making or distributing obscene material
- Possession of indecent photographs depicting child pornography.
- Sexual assault
- Indecent assault
- Exploitation of prostitution
- Making obscene / indecent telephone calls
- Any similar offences (including attempted or conspiracy to commit) offences which replace the above

8.2 Applicant should be free from conviction or caution for at least 7 years since the completion of the sentence if he/she has a conviction for an offence such as:

- Indecent exposure
- Soliciting/Kerb Crawling
- Or any similar offence (including attempted or conspiracy to commit)

8.3 In addition to the above the council will not grant a licence to any applicant who is currently on the Sex Offenders Register or any other similar register.

9. Dishonesty

9.1 All licensed drivers are expected to be trustworthy. In the course of their working duties, drivers will deal with cash transactions and valuable property may be left in their vehicles. Drivers may well deal with customers who are vulnerable or intoxicated and potentially easily confused. For these reasons, a serious view is taken of any conviction involving dishonesty.

9.2 In general, a minimum period of 5 years free of conviction or caution, or at least 5 years have passed since the completion of sentence (whichever is longer), should be required before granting a licence. Offences involving dishonesty include:

- theft
- burglary
- fraud
- benefit fraud
- handling or receiving stolen goods
- forgery
- conspiracy to defraud
- obtaining money or property by deception
- other deception
- taking a vehicle without consent
- fare overcharging
- or any similar offences (including attempted or conspiracy to commit) offences which replace the above

9.3 Applicants or existing licence holders that are found to have intentionally misled the council, or lied as part of the application process, will not be issued with a licence.

10. Drink driving / driving whilst under the influence of drugs

10.1 A serious view is taken of any offences. Drinking alcohol or taking drugs and driving poses an obvious risk to public safety.

10.2 As licensees are professional vocational drivers, a serious view is taken of

convictions for driving, or being in charge of a vehicle while under the influence of drink or drugs. More than one conviction for these offences raises significant doubts as to the applicant's fitness to drive the public. At least 7 years, after the restoration of the driving licence following a drink drive conviction should elapse before an application will be granted. If there is any suggestion that the applicant is alcohol or drug dependent, a satisfactory special medical report must be provided before the application can be granted.

10.3 Offences in relation to failing to supply a specimen will be subject to the same 7 year period.

10.4 If there is evidence of persistent drugs use, misuse or dependency a specialist medical examination (in accordance with DVLA Group 2 medical standards) and a satisfactory medical report may be required before the licence is granted. If the applicant was an addict, then they would be required to show evidence of 7 years free from drug taking after detoxification treatment.

11. Driving offences involving the loss of life

11.1 A very serious view is to be taken of any applicant who has been convicted of a driving offence that resulted in the loss of life.

A licence will not be granted if an applicant has a conviction for:

- Causing death by dangerous driving
- Causing death by careless driving whilst under influence of drink or drugs
- Causing death by careless driving
- Causing death by driving: unlicensed, disqualified or uninsured drivers
- Or any similar offences (including attempted or conspiracy to commit) offences which replace the above

12. Other traffic offences

12.1 Traffic offences such as obstruction, some speeding offences (usually dealt with by means of a fixed penalty), pedestrian crossing offences, traffic light offences waiting in a restricted area, or offences of a similar nature may not ordinarily merit refusal. However, they will be subject to consideration as part of the any pattern of behaviour that affects public safety and safe and suitable behaviour. For existing drivers who have accumulated the fit and proper, safe and suitable test will apply. Speed kills and unsafe driving is not acceptable.

12.2 Traffic offences such as driving without due care and attention, reckless driving, more serious speeding offences (usually dealt with by a court rather than a fixed penalty), or offences of a similar nature will give rise to serious doubts about the applicant's suitability to be a driving professional and will merit refusal of an application for a licence. An applicant with any such convictions will be required to show a period of at least one year free of such convictions. Applicants with multiple offences they will be subject to consideration as part of the any pattern of behaviour that affects public safety and safe and suitable behaviour. The fit

and proper, safe and suitable test will apply. Speed kills and unsafe driving is not acceptable. In cases where the courts have imposed a disqualification in respect of the DVLA driving licence an application will normally be refused unless at least 5 years has elapsed since the ban was imposed.

- 12.3 Using a hand-held device whilst driving: Where an applicant has a conviction for using a held-hand mobile telephone or a hand- held device whilst driving, a licence will not be granted until at least five years have elapsed since the conviction or completion of any sentence or driving ban imposed, whichever is the later.

13 Drugs

Where an applicant has any conviction or caution for, or related to, the supply of drugs, or possession with intent to supply or connected with possession with intent to supply, a licence will not be granted until at least 10 years have elapsed since the completion of any sentence imposed.

Where an applicant has a conviction or caution for possession of drugs, or related to the possession of drugs, a licence will not be granted until at least five years have elapsed since the completion of any sentence imposed. In these circumstances, any applicant may also have to undergo drugs testing for a period at their own expense to demonstrate that they are not using controlled drugs.

In relation to both the supply or possession of drugs the nature and quantity of the drugs and the sentence of any court will be considered.

14 Discrimination

Where an applicant has a conviction or caution involving or connected with discrimination in any form, a licence will not be granted until at least seven years have elapsed since the completion of the sentence. Discrimination can include (but is not limited to) crimes committed on the basis, or perceived basis, of a victim's race, religion, disability or sexual orientation or transgender identity. Offences such as racially aggravated criminal damage are covered under this paragraph.

15 Outstanding Charges or Summonses

- a. If the individual is the subject of an outstanding charge or summons their application may be suspended until the matter is resolved, this decision will be made on a case by case basis.

16 Non-conviction information

- a. The Council will also take into account situations and circumstances that have

not led to a conviction. This will include acquittals, circumstances in which convictions were quashed due to misdirection to the jury, circumstances where the decision was taken not to prosecute, situations where the person has been arrested and bailed but not yet charged, and complaints from the public. In considering the most appropriate action to take in relation to non-conviction information (or a complaint), the credibility of both the witness / complainant and the licence holder will be taken into account.

- b. If an applicant has been arrested or charged, but not convicted, for a serious offence which suggests he could be a danger to the public, consideration should be given to refusing the application. Such offences would include violent and / or sexual offences.
- c. In assessing the action to take, the safety of the travelling public must be the paramount concern.

17 Licensing Offences

- a. Certain offences under taxi legislation such as plying for hire, overcharging and refusing to carry disabled persons will prevent a licence being granted or renewed until a period of 3 years has passed since conviction.

18 Insurance Offences

- a. A serious view will be taken of convictions of driving or being in charge of a vehicle without insurance. An isolated incident in the past will not necessarily stop a licence being granted provided he/she has been free of conviction for 3 years, however strict warning should be given as to future behaviour. More than one conviction for these offences will prevent a licence being granted.
- b. An operator found guilty of aiding and abetting the driving of passengers for hire and reward whilst without insurance will have his Operator's Licence revoked immediately and will not be permitted to hold a licence for a period of at least three years.

19 Applicants with periods of residency outside the UK

- a. If an applicant has spent six continuous months or more overseas (since the age of 16) the council will expect to see evidence of a criminal record check from the country / countries visited covering the period.
- b. Because of the potential lifetime relevance for some of the most serious offences mentioned in this policy, the Council will need to ensure that sufficient background checks are conducted for those applicants who have lived overseas. For EU nationals a disclosure that is similar to the UK DBS will be required, for those countries for which checks are not available, the council will require a certificate of good conduct authenticated by the relevant embassy.

20 Summary

- a. Whilst a criminal history in itself may not automatically result in refusal and a current conviction for a serious crime need not bar an applicant permanently from becoming licensed, in most cases, an applicant would be expected to have remained free from conviction for 3 to 10 years (the period of time depending on the crime committed, as detailed above), before an application is likely to be successful. If there is any doubt about the suitability of an individual to be licensed, the committee needs to be mindful of the need to protect the public and caution should be exercised.
- b. While it is possible that an applicant may have several convictions that, individually, meet the above guidelines, the overall offending history must be considered when assessing an applicant's suitability to be licensed. A series of offences over a period of time is more likely to give cause for concern than an isolated minor conviction. Some discretion can be afforded if an offence disclosed is isolated and there are mitigating circumstances, but the overriding consideration is the protection of the public.
- c. A suspension or revocation of the licence of a driver takes effect at the end of the period of 21 days beginning with the day on which notice is given to the driver. If it appears that the interests of public safety require the suspension or revocation of the licence to have immediate effect, and the notice given to the driver includes a statement that is so and an explanation why, the suspension or revocation takes effect when the notice is given to the driver. [s61(2B) of the Local Government (Miscellaneous Provisions) Act 1976.
- d. At least three years should elapse (after the restoration of the DVLA driving licence), before a licence would be granted.

3. Every vehicle must be maintained to a high standard both internally and externally throughout the licence period in a safe and clean condition regardless of age and is subject to such examinations as are required by the Council

5. An SBC licensed hackney vehicle aged 8 years may continue until the expiry of its current licence subject to its safe and suitable condition to pass a vehicle licensing inspection.
6. a WAV hackney licensed vehicle aged 10* years old may continue until the expiry of its current licence subject to its safe and suitable condition to pass a vehicle licensing inspection.

Emission Standards

In order to beneficially impact the borough's emissions, it is important to set standards that are common to all within the hackney carriage and private hire fleet, to ensure consistency and a level playing field for proprietors, operators and drivers. The age of vehicles and the exhaust emission specification are critical to the level of pollutants emitted.

In terms of expected emission standards, the Council requires that that all licensed vehicles which are submitted for licensing for the first time from the implementation of this policy, must meet or exceed Euro 6 emission standards

Where vehicles do not meet the relevant emissions criteria, the proprietor may:

- Have the vehicle adapted / modified to meet the standard
- Change the fuel that is used to a cleaner alternative, such as bio diesel
- Replace the vehicle with one that meets the emission standard

Ultra Low Emission Vehicles (ULEVs)

The Council aims to encourage the uptake of low emission vehicles in the Borough, and will constantly examine the feasibility of introducing incentives for ULEVs. The Council recognise that purchasing ULEVs will have a significant economic impact on drivers, and

the only reasonable incentives offered by the Council would be mainly monetary. Therefore, work to incentivise licensed drivers to purchase ULEVs will be incorporated into the Council's annual fees and charges review, to understand how differential fees can be applied to those vehicles that meet required standards. Removing the limit on Hackney vehicle applications to ULEVs that are also wheel chair accessible also offers entry to what was a closed system for applications.

The Council are also undertaking separate project work to improve the infrastructure charging network across the borough and at Scarborough Station in particular as part of its potential regeneration of Scarborough. A number of charging points hopefully will be deployed across the borough in the near future.
