

## Application for Additional Environmental Approval (AEA)

1. Name:
2. Address to which this AEA application relates:
3. Contact Email:  
Phone:
4. The reference number of the planning permission to which the application relates: *e.g. 20/01234/EG*
5. Please provide the condition(s) which set out the time limit(s) for implementation:  
*If you require additional space please continue on the space at the end of this form*
6. Are there any condition(s) or other agreements which relate to environmental mitigation or enhancement measures?  
*If yes please supply details. If you require additional space please continue on the space at the end of this form*
7. Was the original permission subject to an Environmental Impact Assessment (EIA) and/or a Habitats Regulation Assessment (HRA), or screening for either type of assessment?  
*If yes please supply details. If you require additional space please continue on the space at the end of this form*

## **Additional notes for applications with EIA and/or HRA**

8. If the original planning permission was subject to one or both of these assessments, or screening for either, please provide details of:
- a) The original assessment(s) or screening(s) and a summary of the key findings.  
*Attached. Please title your document 8a*
  - b) Information on any mitigation measures secured to address environmental effects, and the progress toward delivering these measures.  
*Attached. Please title your document 8b*
  - c) An environmental report containing a reasoned explanation of why, in your view, there have been no changes to environmental circumstances which would make the original screening or assessment out of date.  
*Attached. Please title your document 8c*

For example, it may be appropriate to include:

- an analysis of any further committed development proposals which may affect the assessment of cumulative effects, and why, in your view this does not make the original assessment out of date
  - a description of any changes to the factual circumstances of the proposed development, such as a new environmental designation, new environmental information or other changes of circumstance, and an analysis of why, in your view, this does not make the original assessment out of date
- d) Any other relevant information which would, in your view, support the case that the previous screenings or assessments remain up to date.  
*Attached. Please title your document 8d*

## **Additional notes for applications without EIA and/or HRA**

9. If the original planning permission was granted without the need for an EIA or HRA, please provide:
- a) A brief explanation of why you consider it remains the case that neither of these assessments would be needed if an application for planning permission was being made now.  
*Attached. Please title your document 9a*
10. If the original planning permission was granted without the need for screening for an EIA or a HRA, but you think that screening might be needed if an application for planning permission was being made now, and you think that the screening would show that no substantive assessment was required, please provide:
- a) Sufficient information to enable us to undertake screening within the 28-day determination period.  
*Attached. Please title your document 10a*

Please use this section for additional space

Please ensure you have completed all relevant sections of the form and you attach any additional information or documentation you have referred to in your responses.
