1 INTRODUCTION

1.1 Scarborough Borough Council view the hackney carriage and private hire trades as a key service, that provides front-line transport services to residents and visitors to the Borough of Scarborough and as such consider licensed drivers as ‘ambassadors’ in promoting the good image of the town centres and surrounding areas. First impressions are vital in encouraging tourism and new businesses to relocate in this area.

1.2 The Council is committed to improving the professional image of the trade so expect drivers to be courteous, knowledgeable and smart in appearance. This in turn will raise the reputation of the licensed trade and increase trade.

Legislation

1.3 In undertaking its licensing functions, the LA will have particular regard to:

Local Government (Miscellaneous Provisions) Act 1976
Town Police Clauses Act 1847 and 1849
Crime & Disorder Act 1998 (in particular s17)
Deregulation Act 2015
Disability Discrimination Act 1995
Equalities Act 2010
Health Act 2006
Human Rights Act 1998
Rehabilitation of Offenders Act 1974
Rehabilitation of Offenders Act 1974 (Exceptions) (Amendment) Order 2002
Road Traffic Acts
Transport Act 1985 and 2000

Abbreviations

1.4 In this Policy, the following abbreviations have been used:

DBS - Disclosure and Barring Service
Driver’s Licence - Dual Driver’s Licence
DVLA - Driver and Vehicle Licensing Agency
LA - Licensing Authority of Scarborough Borough Council
SBC - Scarborough Borough Council
The Policy - SBC’s Taxi & Private Hire Policy
TPCA - Town Police Clauses Act 1847

Aims of Licensing

1.5 The principal aim of hackney carriage and private hire licensing is to protect the public whilst ensuring that they have reasonable access to high quality hackney carriage and private hire services. It is accepted that such services play an important role in local transport provision.
Objectives

1.6 The LA shall adopt and carry out its hackney carriage and private hire licensing functions with a view to promoting the following licensing objectives:

- Safety, health and comfort of the public and drivers
- Prevention of crime and disorder, safeguarding of children and the vulnerable
- Vehicle safety, comfort and access
- Provision of high quality vehicles and services
- Promoting tourism and the Borough of Scarborough

1.7 In promoting these objectives, the LA shall expect applicants and existing licence holders to demonstrate that they meet, or indeed exceed, the specifications set by the LA within the Policy at all times. These objectives shall be taken into account by the LA when making any decision.

Delegations

1.8 Under the SBC’s Constitution the Licensing Committee is authorised to discharge non-executive regulatory functions with respect to hackney carriages and private hire licensing. This function is further delegated to the Licensing Sub-Committee comprising of 3 elected members from the Licensing Committee who may determine applications, contraventions, suspensions and revocations (immediate or otherwise).

1.9 This power may be further delegated to Officers in accordance with the SBC’s Constitution.

The Policy

1.10 The Policy sets out the requirements and standards that must be met and in exercising its discretion in carrying out its regulatory functions the LA shall have regard to this document. However, each application or enforcement measure will be considered on its own merits.

1.11 This Policy applies to:

- Hackney carriage vehicles;
- Private hire vehicles;
- Private hire operators; and
- Drivers of hackney carriage and private hire vehicles

1.12 This Policy aims to:

- set out the LA’s approach to regulation, enforcement and sanction of vehicles, drivers and operators;
- define and offer guidance on the legislation in relation to the provision of hackney carriage and private hire vehicles; and
set out the licensing conditions applicable to licensed drivers, vehicles and operators.

1.13 Notwithstanding the existence of the Policy, each application or enforcement measure shall be considered on its own merits. Where it is necessary for the LA to depart substantially from the Policy, clear and compelling reasons shall be given.

1.14 The Policy has been developed in full consultation with all drivers, vehicle proprietors and operators including representatives of the Scarborough & District Taxi Association and with many stakeholder groups.

1.15 The Policy shall be reviewed on a regular basis and may be changed in the interim period, to accommodate minor or legislative changes, without additional consultation.

**Licence fees**

1.16 Licence fees shall be reviewed annually and shall be based on a cost recovery basis.

**Fit and proper test**

1.17 All applicants and existing licence holders must satisfy and demonstrate to the LA that they are fit and proper to hold a licence with this Authority. The LA aims to ensure that private hire and hackney carriage services delivered within the Borough of Scarborough are of a safe and excellent standard.

1.18 In assessing whether someone is fit and proper the LA shall take into account the following (this list is not exhaustive):

- Criminality (including driving related offences)
- Medical fitness
- Complaints and/or previous history
- Safeguarding issues
- Human Rights

1.19 Licensed vehicles are often used by people who are vulnerable, for example; the young, elderly, disabled, those who have consumed too much alcohol or are in an unfamiliar place or because the destination is remote and isolated. The fit and proper test is therefore vital in protecting the travelling public, enabling them to have confidence in the taxi and private hire trade.

1.20 All decisions regarding the fit and proper test are made using the civil standard of proof, being on the balance of probabilities, and not the criminal standard of ‘beyond all reasonable doubt’.

1.21 Where the LA considers that an applicant is not fit and proper then a licence shall not be granted. If there is any doubt as to whether an applicant is fit and
proper then the LA must not grant or renew a licence. Each case shall be treated on its own merits.

1.22 Where the LA considers that an existing licence holder is not fit and proper, then the LA is under a duty to revoke that licence. It is often the case that, in the interests of public safety, a licence will be revoked with immediate effect. In these circumstances the revocation takes effect immediately that the decision is communicated to the driver. In other instances the revocation will take effect 21 days after the decision has been communicated to the driver, unless there is an appeal in which case the revocation only takes effect if and when the appeal is disposed of by the Court in favour of the LA. In some cases further information is made available following a determination to revoke which was not available to the Council at the time the decision was made. In these instances, it is not possible to review the evidence and simply reinstate the driver if it is deemed that, on the basis of the new evidence, s/he is fit and proper. In those circumstances a new application must be made. Where these circumstances arise the LA may, at its discretion, offer a fast track application process.

Cautions, Warnings, Convictions and any other relevant information

1.23 In assessing whether an applicant or existing licence holder is fit and proper to hold a licence, the LA shall take into account convictions (spent and unspent) including but not limited to motoring offences, cautions, warnings, reprimands, bindings over and any other relevant information. Appendix D of this document outlines the principles and sanctions that shall be applied although each case shall be treated on its own merit.

DRIVERS

Dual Driver Licences

2.1 The LA shall issue a dual driver’s licence giving the holder the flexibility to drive either a hackney carriage or a private hire vehicle.

2.2 A licence shall not be granted to a person who is under 18 years of age. In addition, a licence cannot be granted to any person over 18 who has not held a full driving licence for a period of at least 1 year.

2.3 The driver’s licence shall remain in force for a period of 3 years unless the LA specifies a lesser period, revokes or suspends the licence. The full requirements for a dual driver’s licence are at Appendix A.

The Knowledge & Geographical Test

2.4 Drivers must have a good working knowledge of the area within which they intend to work and shall undergo a Knowledge and Geographical Test as part of the application process.
Conditions

2.5 The LA considers that the conditions set out in Appendix B are reasonably necessary and appropriate for all licensed drivers and all drivers are expected to comply with these conditions. Additional conditions may be imposed as and when the LA deems necessary.

2.6 Many of the requirements prescribed within the Hackney Carriage Byelaws are effectively conditions. The current Byelaws are attached at Appendix K.

Dress Code

2.7 In order to promote the professional image of the licensed trade, a minimum dress code for licensed drivers has been adopted and is included at Appendix B. Operators with their own dress codes shall comply with the LA’s minimum standards.

Grant of licences

2.8 The procedure for the grant of a licence is set out at Appendix A. As all licences include a clear expiry date, it is the responsibility of the licence holder to ensure an application is submitted in the time frame provided by the LA.

Driver’s Badge

2.9 The LA shall supply the driver’s badge and photographic ID card which remain the property of the LA and must be returned at the expiry of the driver’s licence. Where a licence is suspended or revoked both must be returned to the LA following the end of the appeal period unless suspended or revoked with immediate effect in which case the badge and ID card must be returned immediately.

2.10 Where a badge has been damaged, lost or stolen this must be reported to the LA immediately.

3 VEHICLES

Hackney Carriage and Private Hire Vehicle Licences

3.1 Private hire vehicles are licensed to perform pre-booked work only obtained through a private hire operator. Hackney carriages are licensed to ‘ply for hire’, i.e. to pick up passengers in the street or whilst waiting at authorised taxi ranks and may also accept pre-booked fares.

3.2 Vehicles must be suitable in type, size and design for use as a licensed vehicle. The LA shall licence any vehicle manufactured or adapted to carry up to 8 passengers (excluding driver) provided that it meets the criteria set out at Appendix E.
3.3 In addition, all vehicles must be in a suitable mechanical condition, safe, comfortable and approved for licensing by the LA to operate as a hackney carriage or private hire vehicle. All vehicle licence holders shall therefore be required to produce their vehicle for an MOT and compliance test twice a year and on the following occasions:

- New applications
- The replacement of a vehicle
- At the request of the LA where deemed necessary

3.4 All MOT tests and vehicle licence compliance checks shall be carried out at Scarborough Borough Council’s garage, Dean Road Depot, Dean Road Scarborough, YO12 7QS. Any MOT tests or licence compliance checks carried out by any other garage/testing centre on hackney carriage or private hire vehicles shall not be accepted.

3.5 The vehicle licence shall remain in force for a period of one year unless the LA specifies a lesser period or revokes or suspends the licence.

**Intended use**

3.6 Applicants for new hackney carriage vehicle licences shall be expected to demonstrate a bona fide intention to ply for hire within the Borough of Scarborough. There shall therefore be a presumption that applicants who intend to operate remotely for the majority of the time shall not normally be granted a hackney carriage vehicle licence.

3.7 The above presumption may be rebutted only in exceptional circumstances however each application shall be decided on its own merits. The LA shall place public safety above all other considerations.

**Proprietorship**

3.8 In accordance with Section 40 of the TPCA (relating to hackney carriages) and Section 48(1) of the LG(MP)A (relating to private hire vehicles) the applicant for the licence must be the proprietor or part proprietor of the vehicle.

3.9 The LA shall require proof of proprietorship by way of a bill of sale, a hire purchase/lease agreement together with the registration document.

**Limitation of numbers**

3.10 No powers exist for LAs to limit the number of private hire vehicles that they licence. However a LA may restrict the number of hackney carriage vehicle licences it issues provided it is satisfied that there is no significant unmet demand for the services of hackney carriages.

3.11 The requirement to undertake an unmet demand survey shall only be triggered where SBC considers limiting the number of hackney carriages
within the Borough of Scarborough. Where this is the case, the LA shall conduct an unmet demand survey to determine any unmet demand with the cost being borne by the hackney carriage vehicle licence holders.

3.12 Where SBC restricts the number of hackney carriage vehicle licences, a list of those individuals or organisations that express an interest in obtaining a hackney carriage vehicle licence shall be maintained. The procedure for this process is as set out below.

**Procedure on allocation of hackney carriage vehicle licences**

3.13.1 The LA shall maintain an expression of interest list in chronological order where a person or organisation notifies the LA of its interest in obtaining a hackney carriage vehicle licence.

3.13.2 Once a hackney carriage vehicle licence becomes available the LA shall contact the individual or organisation next on the list and shall request them to:

   a) Submit an application within 14 days of being notified, and
   b) Produce a vehicle for inspection within 3 months of being notified.

3.13.3 Where the LA is satisfied as to the suitability of the vehicle it shall then issue the hackney carriage vehicle licence.

3.13.4 Where an applicant fails to a) submit an application or b) produce a vehicle for inspection within the required period, the person or organisation shall forgo their right to apply for a hackney carriage vehicle licence and the next person or organisation on the expression of interest list shall be contacted.

3.13.5 The LA shall maintain the expression of interest list however, the onus shall be on the person or organisation to ensure the LA has current contact details and where a person or organisation wishes to withdraw their interest they shall advise the LA accordingly.

3.13.6 In the interest of fairness, persons or organisations shall not normally be permitted to express an interest for more than one hackney carriage vehicle licence. In addition, a person involved in an organisation may not express additional interests in the name of that organisation where they have already expressed an interest in some capacity. Further requests shall only be considered once the initial expression of interest has resulted in the issue of a hackney carriage vehicle licence.

**Vehicle door and other signage**

3.14 With regard to a private hire vehicle, the Operator door signs shall be displayed at all times the vehicle is operating as a private hire vehicle. The specifications regarding signage are set out in Appendix F.
3.15 The LA recognises however the very distinct role of executive vehicles in providing transport and that due to the nature of their business, some owners of these vehicles may wish to apply for an exemption from displaying the Operator door signs. Details of vehicles, make, model and registration numbers must be provided to the LA together with clear reasons for this exemption request.

3.16 All decisions shall authorise specific occasions and each application shall be treated on its own merit. However, the following conditions shall always apply to such vehicles:

a) the Operator signs must be kept within the vehicle at all times and shall be made available for inspection upon request;

b) the Operator signs shall be affixed to the vehicle at all other times than those specified in the authorisation letter;

c) the driver shall at all times whilst working wear the driver’s badge above any outer clothing and in such a position that is clearly visible to the public;

d) the driver’s photographic identification card issued by the LA must be displayed in such a position in the vehicle that is clearly visible; and

e) the exemption letter shall be kept in the vehicle at all times and made available for inspection upon request.

Vehicle licence plates

3.17 The LA shall issue an external and internal licence plate. The external plate shall be displayed on the rear exterior of the vehicle and the internal plate shall be displayed in the top left corner of the windscreen. Both are required to be maintained in a good condition and to be clearly visible at all times.

3.18 The LA recognises that due to the nature of their business, some licence holders may wish to apply for exemption from displaying the external licence plate. Where a licence holder wishes to make such an application then they must provide details of the vehicle(s) (including the make, model and registration number(s)) to the LA together with clear reasons for the request.

3.19 All decisions shall authorise specific occasions and each application shall be treated on its own merit. However, the following conditions shall always apply to such vehicles:

a) the external private hire licence plate shall be kept within the vehicle at all times and shall be made available for inspection upon request;

b) the external licence plate shall be affixed to the vehicle at all times other than that specified in the authorisation letter;

c) the licensed driver shall, at all times whilst working, wear the driver’s badge above any outer clothing and in such a position that it is clearly visible to the public;

d) the driver’s photographic identification card issued by the LA shall be displayed in such a position in the vehicle that it is clearly visible;
e) the exemption letter shall be kept in the vehicle at all times and shall be made available for inspection upon request; and
f) the internal plate issued by the LA shall be displayed in the inside top left corner of the windscreen and shall be maintained in a clean and legible condition at all times.

3.20 The loss or damage of either vehicle licence plates shall be reported to the LA immediately so that a replacement can be obtained on payment of the prescribed fee. Until a new licence plate is issued the vehicle shall not be used for the carriage of fare paying passengers.

3.21 The vehicle licence plates remain the property of the LA and shall not be copied or used in a fraudulent manner.

**Taxi Meters (hackney carriages)**

3.22 Taxi meters shall be programmed clock calendar controlled and a Certificate of Installation issued by a certified installer shall be available to the LA upon request.

3.23 Meters shall be tested over the ‘measured mile’ and must not incorporate any other LA’s fare structure.

3.24 Meters must be used for charging all journeys that start and finish within the Borough. For the avoidance of doubt meters should also be used for any pre-booked journey undertaken within the Borough.

3.25 In the case of journeys ending outside the Borough, a fare greater than that shown on the meter may be charged but only where an agreement to pay more than the metered fare has been made in advance of the hiring commencing. In cases where such an agreement has not been made with the hirer, only the metered fare may be charged.

3.26 If a hackney carriage is used under a contract for private hire, the meter shall be used and a fare not greater than that shown on the meter may be charged. In addition the meter may only be engaged from the point in the controlled district where the hirer commences his/her journey.

3.27 No person shall tamper with any seal on any taximeter or alter any taximeter with intent to mislead. All letters and figures on the face of the meter must be visible at all times to any person being conveyed in the vehicle.

**Trailers**

3.28 Trailers can be used in connection with hackney carriages and private hire bookings but cannot be used whilst plying for hire. The LA has imposed conditions concerning the use of trailers that are set out at Appendix E.
Horse Drawn Carriages

3.29 Any hackney carriage licence granted for use with a horse drawn carriage shall be subject to the conditions set out at Appendix H. As these vehicles do not comply with the criteria set down within this Policy, all decisions shall be made by the Licensing Sub-Committee who may grant the licence for a period of up to 12 months on the basis that there shall be no expectation of renewal or grant for the next 12 month period. The licence will be reviewed on re-application after the 12 month licence period to ensure that the vehicle to which it relates remains a horse drawn vehicle.

3.30 Where in the licence period the vehicle has changed from a horse drawn vehicle or other material change takes place, the application shall be returned to the Licensing Sub-Committee for determination.

Advertising

3.31 Advertising shall only be permitted in respect of hackney carriage vehicles.

3.32 Where a proprietor of a hackney carriage vehicle wishes to place advertisements on or in the vehicle written consent from the LA must be obtained. Any authorisation and all applications shall be approved separately and individually and in accordance with the principles laid down at Appendix G.

Replacement Vehicles

3.33 There is no statutory mechanism to change a vehicle once the licence has been issued. The LA however recognises that proprietors may wish to change their vehicle during the period of the licence. As such it is necessary for the proprietor to surrender the licence (which includes the licence plate) in respect of the original vehicle. Upon receipt of a new application and appropriate fee, the LA shall issue a new licence (inclusive of licence plate) in respect of the replacement vehicle. This process shall be undertaken in the clear recognition that the original licence holder shall be granted the new vehicle licence and no opportunity shall be afforded to any third party to obtain the licence ahead of the original licence holder.

3.34 This approach shall also be taken in respect of vehicles that have been involved in an accident where a temporary replacement vehicle is required. Regardless of the period of time the replacement vehicle is to be used for, the procedure as outlined above shall be undertaken for the replacement vehicle, and again when the original vehicle is returned to service.

3.35 Where a vehicle is over 4 years of age, and for the remaining period of time whilst it is licensed by the LA, the procedure outlined above shall apply provided the vehicle is repaired within 2 months of the LA being notified of the accident.
Non-standard vehicles

3.36 Applications for vehicles that do not meet the standard criteria as set out in Appendix E shall be determined by the LA’s Licensing Sub-Committee. Each application shall be considered on its own merit and public safety shall be of prime importance. The requirement for future applications to be determined by the LA’s Licensing Sub-Committee shall be at the discretion of the LA.

3.37 The LA considers it necessary to impose additional standard conditions to those specified in Appendix E in relation to these vehicles (set out at Appendix I). The LA may also place upon the licence further conditions to ensure the safety of the travelling public.

3.38 All other relevant driver’s, vehicle’s and operator’s conditions shall otherwise apply to the licence.

Conditions

3.39 The LA is empowered to impose such conditions as it considers reasonably necessary in relation to the grant of a hackney carriage or private hire vehicle licence. As these vehicles provide a service to the public, it is appropriate to set criteria by way of condition for the external and internal condition of the vehicle, provided that these are not unreasonably onerous. These conditions are set out at Appendix E.

Hackney carriage fare table

3.40 The hackney carriage table of fares shall be determined by the LA and sets out the maximum fare that can be charged by hackney carriage drivers. This fare may be negotiated downwards by the hirer.

3.41 It is an offence however for any hackney driver to charge more than the metered fare. The current fare table must be clearly visible and prominently displayed in the vehicle at all times.

3.42 Where the LA receives a request for a change to the table of fares, the request shall be submitted to the Licensing Committee for determination. Requests shall be fair, proportionate and representative, providing clear justification and detailed reasons.

3.43 Following receipt of an application under this section, the LA shall publish a notice in one or more local newspapers circulating in the borough setting out the proposed table of fares together with a date for the fares to take effect. A copy of this Notice shall also be available at SBC’s offices and published on SBC’s website.

3.44 At the end of this period, the LA shall consider the application and any objections received. Where there are relevant and valid objections, any change to the table of fares shall be postponed and shall be returned to the Licensing Committee to determine. Where there are no objections at the end
of the consultation period the new fare structure shall be implemented without the need for further recourse to the Licensing Committee.

4 OPERATORS

Operator's Licence

4.1 An operator's licence is required for the purpose of making provision for the invitation or acceptance of bookings for a private hire vehicle. The operator's licence shall remain in force for a period of five years unless the LA specifies a lesser period, revokes or suspends the licence. The licence is not transferable.

4.2 An applicant shall be required upon application to produce a Basic Disclosure Certificate (dated within one calendar month of application) to assist the LA in determining whether they are a fit and proper person to hold an operator's licence with this Authority.

4.3 Where an applicant is a company or organisation seeking to hold an operator's licence, then the proposed manager responsible for the day to day running of the business shall be required to produce a Basic Disclosure Certificate (dated within one calendar month of application). If the manager were to change during the licence period, the proposed manager shall be required to produce a Basic Disclosure Certificate to the LA prior to commencing in that role.

Secondary or satellite booking offices

4.4 The operator shall only conduct business from the office at the address specified on the licence. Any operator wishing to conduct business from any additional address(es) whether it is a business or residential address (i.e. secondary or satellite booking offices) shall make an application in writing to the LA.

4.5 The LA reserves the right for an authorised officer to inspect all such premises for suitability and compliance with the requirements of these conditions.

Conditions

4.6 The LA has the power to impose such conditions on an operator’s licence as it considers reasonably necessary. The standard conditions applicable to all operators are set out at Appendix C.

Taxi Watch

4.7 The LA supports operators in the “Taxi Watch” scheme and encourages operators to share intelligence regarding disorderly or violent customers. The scheme also provides a direct link to the SBC CCTV centre for the reporting of safeguarding and other important issues.
5 RIGHT OF APPEAL

5.1 In respect of taxi and private hire licensing decisions, the following rights of appeal are provided by the LG(MP)A 1976:

- Appeal against conditions imposed on a hackney carriage proprietor’s licence: Section 47
- Appeal against refusal to grant a private hire vehicle licence or conditions imposed on such a licence: Section 48
- Appeal against refusal to grant a private hire driver’s licence or conditions imposed on such a licence: Section 52
- Appeal against refusal to grant a private hire operator’s licence or conditions imposed on such a licence: Section 55
- Appeal against refusal to grant a hackney carriage driver’s licence: Section 59
- Appeal against suspension, revocation or refusal to renew a hackney carriage or private hire driver’s licence: Section 61
- Appeal against suspension, revocation or refusal to renew a private hire operator’s licence: Section 62

5.2 The statutory rights of appeal in connection with

- Dual Badge Drivers’ Licences
- Private Hire Operators’ Licences
- Private Hire Vehicle Licences

are to the Magistrates’ Court. These appeals can be both against a refusal to grant or renew a licence and in respect of a decision to suspend or revoke a licence that is in existence, as well as a right of appeal against any conditions that may be imposed on any such licence by the LA.

5.3 An appeal against a refusal to grant a hackney carriage vehicle licence (the Public Health Act 1875) lies directly to the Crown Court however an appeal against a failure to renew or to suspend or revoke a hackney carriage vehicle licence is to the Magistrates’ Court.

5.5 Section 52 of the Road Safety Act 2006 gives the LA the power to suspend or revoke a driver’s licence with immediate effect where they are of the opinion that the interests of public safety require such a course of action. The driver may still appeal against this decision but it shall be noted that as this decision is immediate the driver is not permitted to drive in the appeal period.
Hearings

5.6 Hearings of the Licensing Sub Committee shall take place in public except where the Sub Committee considers that the hearing, or part thereof, be heard in private having regard to:

(b) whether or not the public interest of maintaining the exemption outweighs the public interest in disclosing the exempt information.

5.7 In reaching the decision, the Sub Committee shall have due regard to Article 6 of the Human Rights Act 1998, being the right to a fair trial.

5.8 The Sub Committee is at liberty to reconsider the exclusion of the public at any point within the hearing either upon the request of one of the parties or of its own volition.

3. All applicants shall be required to subscribe to the DBS update service. This requirement applies regardless of the agency through which the disclosure is obtained and shall apply to both new and renewal applications. The LA shall check an applicant has successfully subscribed to the service prior to the granting of a driver’s licence.

4. With regard to the employment of Foreign Nationals, the LA recognises that the DBS disclosure will only provide information from the time the applicant has resided in the UK. In such circumstances and where there is a need to check any potential criminal record, the LA shall seek guidance from the DBS on how to obtain further information. Where this information is not listed in the disclosure, then the applicant may be required to obtain a Certificate of Good Conduct from his or her own Embassy. Any costs incurred in this process shall be borne by the applicant.

Driver and Vehicle Licensing Agency (DVLA) Check

5. All drivers are required to obtain a DVLA check code which shall be used to check driving licence details including entitlements and endorsements and to confirm that an applicant has held a full driving licence for a period of at least twelve months.

Medical Certification

6. A Medical Certificate on application and thereafter at every applicable application. The medical shall be to the DVLA Group 2 standard and the examiner undertaking the medical must have access to the applicant’s/driver’s medical history. 7. With regard to a driver who has attained the age of 65, a Medical Certificate must be produced annually.
8. Those applicants who currently hold a DVLA licence entitling them to drive a lorry or bus, and have already undergone a DVLA Group 2 medical within 12 months of application, may not be required to undertake a further medical. Each case shall be treated on its own merit and the LA reserves the right to require an up to date certificate.

9. The LA appreciate that some existing drivers who have held a dual driver’s licence prior to the implementation of the DVLA Group 2 medical may not meet the DVLA Group 2 Visual Acuity standard, therefore any existing driver licensed prior to October 2008 shall be exempt from meeting this standard. In this instance they shall be expected to meet the DVLA Group 1 Visual Acuity standard. All new applicants shall be required to meet the DVLA Group 2 Visual Acuity standards.

Failure to undergo this training or to produce the Safeguarding Certificate within the specified time frame shall result in the driver’s licence being reviewed with a view to revocation as such a failure indicates a disregard for safeguarding responsibilities, the LA, its officers and the conditions on the driver’s licence. Each case, however, shall be treated on its own merit.

PRINCIPLES WHEN CONSIDERING APPLICATIONS AND REVIEWS OF EXISTING LICENCES

1. This section of the Policy provides guidance on the criteria considered when determining whether or not an applicant or an existing licence holder is a fit and proper person. In exercising its duty the LA shall consider the need to ensure the safety of the public as its primary consideration, in particular the LA shall take steps to ensure that:

   • a person is fit and proper;
   • the person does not pose a threat to the public;
   • the public are safeguarded from dishonest or criminal persons; and
   • the safety of children, young persons and vulnerable adults is not compromised.

2. New and renewal applications together with reviews of licences shall be determined in line with the policy set out below. When making any decision, the following shall be considered:

   • Any previous history
   • Where there is an incident, the nature of the incident;
   • Any sanction imposed;
   • The length of time since the incident took place;
   • Any relevant circumstances, including any mitigating circumstances;

General Application Policy

3. An individual with a conviction may not necessarily be excluded from obtaining a licence, however the LA shall normally expect that they would be required to:

   (i) Remain free of conviction for an appropriate period as outlined in this Policy; and
   (ii) Evidence that they are fit and proper to hold a licence, the onus being on the applicant to produce such evidence. It should be noted that simply remaining free of conviction may not generally be regarded as adequate evidence that a person is a fit and proper person.

Protection of the Public

4. The purpose of hackney carriage and private hire licensing is to protect and ensure the safety of the public. All decisions shall be made on the balance of probabilities rather than beyond all reasonable doubt and each case shall be treated on its own merit.

5. The public needs to be protected, the three main causes for concern arise from:
• Dishonesty (including evidence of any dishonesty during the application process)
• Violence
• Incidents of a sexual nature

6. Other causes for concern may also arise from:

• Drugs and alcohol
• Criminal damage
• Contraventions of licensing laws or conditions
• Obscene material
• Discrimination
• Harassment
• Major and Minor Motoring/Traffic Offences
• Persistent criminality
• Incidents of a domestic nature

The above list is not exhaustive.

7. All convictions (spent or otherwise), including additional information received on a DBS disclosure, Fixed Penalty Notices, Anti-social behaviour orders, Cautions, Penalty Points, Warnings and any other relevant information available to the LA at the time of the determination, shall be considered when determining whether an individual is a fit and proper person.

41. A conviction for causing death by dangerous or careless driving or any similar offences shall normally result in the application being **refused**.

42. However, the over-riding consideration in all cases shall be for the protection and safety of the public.
43. A licence shall normally be **refused** if an applicant has more than one conviction of this nature within the last **5 years**.

44. In relation to existing drivers the LA shall carefully consider the facts of the case and determine whether or not the driver remains fit and proper and take the necessary action to protect the public.

**Compliance with Licensing Policy, Conditions, Byelaws and Legislation**

54. Any contravention of this Policy, Conditions, Byelaws or relevant legislation, suggests a disregard to the importance of these requirements. When considering instances of non-compliance, the LA shall consider whether these instances are:

a) Persistent or repeated;
b) Premeditated or calculated;
c) Wilful or deliberate;

55. In relation to existing drivers the LA shall carefully consider the facts of the case including any mitigating circumstances or reasons. **Enforcement**

56. It is recognised that a risk-based approach to enforcement benefits not only the public but also the licensed trade. As such the LA shall operate a firm but fair enforcement regime. To balance the promotion of public safety with the need to permit individuals to safeguard their livelihood, the LA shall only intervene where it is necessary and proportionate to do so, having regard to the aims and objectives outlined in this policy. Each case will be treated on its own merit but if there is any doubt about the suitability of an applicant, the LA shall be mindful of the need to protect the public and caution will be exercised in granting any application where a decision to revoke has been made.

General

59. It shall be noted that these principles are not exhaustive. In addition the principles listed in this section do not preclude the imposition of a higher penalty.

60. The Rehabilitation of Offenders Act 1974 (Exceptions)(Amendment) Order 2002 allows the LA to take into account all convictions, spent or otherwise, recorded against an applicant or licence holder. The rehabilitation periods are available on the Government's website.

APPENDIX J

CRITERIA ON INSTALLATION OF CCTV AND ACCIDENT RECORDING CAMERAS IN LICENSED VEHICLES

General Policy

1. The licensed trade provides a valuable public service particularly late at night when other forms of public transport are not available. Security for drivers and passengers is of paramount importance. CCTV can be a valuable deterrent as well as protection for the driver from unjustified complaints.

2. It is not proposed that CCTV should be required as part of the licensing regime as it is considered that the installation of such systems is best left to the judgement of licence holders themselves.

3. The LA shall maintain an approved list of CCTV systems. Any individual may apply for any new system to be placed on the approved list, however only those systems that meet the specification below would normally be approved.

4. Upon successful application for installation, such vehicle licences shall be subject to additional conditions to ensure that CCTV systems are appropriately installed, operated and maintained so as not to interfere with the safety and comfort of passengers, as well as ensuring the integrity of any images captured.

5. It should be noted that external facing front and rear cameras used for the purposes of recording accidents or incidents outside the vehicle may be installed without authorisation from the LA. Such cameras shall not be used for recording audio from within the vehicle, nor shall they be moved to record images inside the vehicle.

6. Drivers are responsible for ensuring that they are compliant with any and all other legislation, including the Data Protection Act and 1998 and any requirements or rules set out by the Information Commissioner and that any permission for CCTV installation granted by the LA does not purport to grant permission or authorisation under any other piece of legislation or establish compliance with any other requirement outside the Taxi and Private Hire Licensing Regime.

Minimum System Specification

7. The following are the minimum criteria that the LA would expect a CCTV system to meet in order for the system to be placed on the list of CCTV systems approved to be installed in vehicles. The system shall, as a minimum:

   a) Meet the current Information Commissioner Data Protection requirements.

   b) Accurately record the correct date and time.
c) Record and store images for a minimum period of 28 days.

d) Capture images that, in low light conditions, must be of sufficient quality to enable identification of any person travelling in the vehicle and be of such quality that they can be used for prosecution purposes.

e) Store images in a manner, which prevents them being removed, downloaded or viewed by the driver or any other person travelling in the vehicle.

f) Provide that images are only capable of being downloaded by authorised officers of the LA and/or North Yorkshire Police.

g) Ensure that images are digitally encrypted. De-encryption software required to view the recorded images shall be supplied to the LA free of charge before the system is installed in the vehicle.

h) Ensure that the hard disk or data card is not able to be accessed by the driver or any other person travelling in the vehicle.

i) Ensure that the data unit is stored separately from the camera(s) and out of view of person travelling in the vehicle.

j) Ensure that cameras are capable of being fitted in locations that do not affect the safety of any person travelling in the vehicle, and located as securely and discreetly as possible to avoid passengers travelling in the vehicle from tampering with them.

k) Ensure that activation of the system is via the vehicle’s ignition system (or alternative method approved by the LA) and that recording shall continue 15 minutes after the ignition is switched off. The system shall not be provided with any other on/off mechanism that is accessible to the driver or any passenger.

**Application Process for a CCTV system to be approved by the Licensing Authority**

8. An individual or organisation who wishes to apply to the LA for the approval of a CCTV system shall apply in writing for a particular make and model of CCTV system to be placed on the approved list.

9. The applicant shall provide evidence that the product complies with the LA’s minimum recommended specification.

10. Once the system has been approved the LA shall issue the applicant and the manufacturer (where the manufacturer is not also the applicant) written confirmation, and include the system on the approved list. If the system is not approved the LA shall issue the applicant notification of the same and the reasons for the decisions.
11. Each approved system shall be given a unique identification number, which must be quoted on an application for permission to install CCTV in a vehicle.

12. Approval shall be required for each new product or any modification to an existing approved product.

Conditions

13. No CCTV system shall be installed in a vehicle unless it has previously been approved by the LA.

14. No CCTV system shall be installed in a vehicle without the prior written consent of the LA.

15. No cameras shall be installed in the vehicle without prior written consent from the LA as to the number and location of such cameras. The number and location of cameras shall not be varied without the prior written consent of the LA.

16. An advisory notice, provided by the LA, shall be displayed inside the vehicle on each of the rear side passenger windows. The notices shall be positioned in a prominent (though not obstructive) position where they can be easily read by persons both inside and outside of the vehicle. The licence holder shall ensure that the notices are maintained in a clean and legible condition.

17. The licence holder shall ensure that the system is properly and regularly maintained and serviced in accordance with the manufacturer’s instructions. Written records of all maintenance and servicing shall be made and retained by the licence holder for a minimum of 12 months. Such written records shall be made available on demand by authorised officer of the LA and/or North Yorkshire Police.

18. Upon written request for image retrieval by an officer of the LA or a police officer, the licence holder shall ensure that the CCTV system is made available to the officer as soon as reasonably practicable, and in any event within 72 hours of the request being made.

19. The licence holder shall take all reasonable steps to ensure that any driver of the vehicle is made aware of every condition in relation to any installed CCTV system.

20. The licence holder shall ensure that notification is lodged with the Information Commissioner to cover the purposes for which the CCTV system is used.
