

What is the Local Land Charges Service?

The Local Land Charges Service is responsible for maintaining the Local Land Charges Register and for dealing with applications for official searches of that Register received from members of the public either on their own behalf or through their Solicitors, conveyancers, personal search agencies or electronically.

The section completes the official response to a standard form enquiry of the entries on the Local Authority Register (the LLC1).

The section also facilitates the provision of comprehensive replies to enquiries made using the CON29”R” and “O” 2007 Forms.

The section is also the first point of contact for those clients who would prefer to undertake a search of the records personally – or to pay someone other than the authority to undertake a search of the local authority records on your behalf (a Personal Search).
